Emotional Intelligence Global Trend:

Global Trends, Dynamics, and Imperatives for Strategic Development in Business Education in an Age of Disruption Zhuplev, Anatoly, Koepp, Robert, 2021-10-22 Over the past two centuries the world's socio-economic progression has gone through profound paradigm changes unfolding along four major development stages. Higher education has been an important part of this process. The accelerated pace of technological, socio-economic, and business innovations, as well as ongoing fundamental changes in the real world, call for progress in pedagogy. While modern universities have adapted in various degrees through information platforms such as Blackboard or Brightspace, video conferencing, and other technological innovations, they still commonly rely on pedagogical ideas and concepts rooted in a thoroughly pre-modern era rooted in medieval times. Global Trends, Dynamics, and Imperatives for Strategic Development in Business Education in an Age of Disruption explores the genesis of higher education and its contemporary structure and profile in major global regions and discusses key trends, dynamics, drivers, and developmental imperatives currently shaping business education. Covering topics such as business education, online education, and strategic development, this book is essential for teachers, managers, trainers, faculty, administrators, policymakers, researchers, academicians, and students involved in studies that include industrial, economic, social, urban, innovation, legal, and policy development. **Leadership Essentials: A Study Guide** Cybellium Ltd, 2024-10-26 Designed for professionals, students, and enthusiasts alike, our comprehensive books empower you to stay ahead in a rapidly evolving digital world. **Expert Insights:** Our books provide deep, actionable insights that bridge the gap between theory and practical application. **Up to Date Content:** Stay current with the latest advancements, trends, and best practices in IT, AI, Cybersecurity, Business, Economics, and Science. The ex-ante regulation of artificial intelligence in Ethiopia Hiwot Degu, 2019-07-15. Master's Thesis from the year 2019 in the subject Sociology/Culture Technology. Nations grade very good. Ethiopian Civil Service University. Leadership and good governance course. Law language English. Abstract: Artificial intelligence is one of the newly emerging technologies which are creating new challenges to the existing laws and raising serious survival questions. Regarding the relation of artificial intelligence and the law, there are serious concerns on how the law regulates artificial intelligence as it is now becoming more difficult for traditional public regulatory bodies to control the development of AI. Some form of regulation is likely necessary to protect society from harm. Due to the power and complexity of this new emerging technology, regulation can indeed be very impactful, but it also carries risks. This thesis tried to solve this difficulty and examined different issues to answer whether artificial intelligence should be regulated or not, and if so, which basic principles should be followed and who are the suitable organs to regulate it. It also demonstrated the intricacy of this newly emerging technology as it has its own positive and negative consequences on the life of the society. Since the AI technology is prevailing constantly from time to time and its involvement is increasing in every aspect of activities such as factories or hospitals, the particular research emphasized the need for the development of AI that reconciles with its ethical, legal, as well as social issues. To this end, the issue of ex ante regulation was underscored as a necessity to handle the potential challenges of AI in a formal way.
