## **Nudes From Nowhere:**

**Nudes from Nowhere** Darby Lewes,2000 Nudes from Nowhere is the history of the idea that women and land are analogous From the earliest etiological myths through British pornographic texts to historical documents of colonization this book documents the insidious results of feminizing nature and masculinizing culture Nudes from Nowhere shows how both pornography and imperialism feed on those who lack the protection afforded by the privilege of race class or gender

**Nudes from Nowhere** Darby Lewes,2000-05-30 Nudes from Nowhere is the history of the idea that women and the land are analogous This idea is traced from the earliest etiological myths that present the earth as a womb from which life sprang to British pornographic texts which feminized nature and masculinized culture The ultimate effect of treating woman as landscape instead of land is to alter the metaphor of woman from wild nature to cultural artifact This study further tracks the development of the nature culture conflict through its growth in pornographic utopian texts to its eventual realization in the British Imperial project Historic narratives of exploration reinforce the pornography of treating New World lands as women who must be conquered and exploited and maps from the period make the earth woman paradigm graphically explicit European imperialists first used the land as woman metaphor as propaganda to initiate investment and colonization then as a validation for brutal political actions Nudes from Nowhere shows how both pornography and imperialism feed on those who lack protection afforded by the privilege of race class or gender

that the government support its moves for censorship with serious evidence for its claims that sexual or violent materials are known to cause anti social acts This book aims to show that there is no evidence for these claims that the arguments against pornography and for censorship are not supported by any scientific or historical evidence that anti pornography activism is a distraction from the real needs of women and that the very nature of the way the arguments are posed rests on sexist and representative beliefs
