Nuestra America Tomo I:

    Nuestra América (ensayo de psicología social). Carlos Octavio Bunge,1905   <u>Of Summits and Sacrifice</u> Thomas Besom,2010-01-01 In perhaps as few as one hundred years the Inka Empire became the largest state ever formed by a native people anywhere in the Americas dominating the western coast of South America by the early sixteenth century Because the Inkas had no system of writing it was left to Spanish and semi indigenous authors to record the details of the religious rituals that the Inkas believed were vital for consolidating their conquests Synthesizing these arresting accounts that span three centuries Thomas Besom presents a wealth of descriptive data on the Inka practices of human sacrifice and mountain worship supplemented by archaeological evidence Of Summits and Sacrifice offers insight into the symbolic connections between landscape and life that underlay Inka religious beliefs In vivid prose Besom links significant details ranging from the reasons for cyclical sacrificial rites to the varieties of mountain deities producing a uniquely powerful cultural history

    Energy Transitions in Latin America Lira Luz Benites Lazaro,Esteban Serrani,2023-09-30 This book comprehensively analyzes the challenges and opportunities associated with transitioning to sustainable energy systems in Latin America Recognizing that energy transition goes beyond mere changes in energy systems it is also essential to address the imperative of ensuring a just transition and equitable benefits for all particularly for vulnerable populations This recognition emphasizes prioritizing social equity and inclusivity throughout the energy transition process By adopting a critical perspective grounded in multidisciplinary approaches from the social sciences the book delves into the complex energy transition issues exploring the broader social economic and political dimensions involved The book is divided into four parts Part I highlights the changing energy mix in Latin America and the geopolitical implications of the increasing reliance on renewable sources Part II examines the dilemmas faced by countries that rely on oil and gas revenues andthe obstacles they face in transitioning to a low carbon economy Part III analyzes the production technology and costs as limits and opportunities for energy transition and adoption of renewable energies Finally part IV explores energy access and the democratization of energy generation in Latin America including efforts to address energy poverty the growth of distributed energy and prosumers Energy Transitions in Latin America The Tough Route to Sustainable Development is a valuable resource that will benefit researchers in energy studies and policymakers alike It serves as a comprehensive guide for those seeking to navigate the complexities of energy transitions It is an essential source for fostering informed decision making and driving sustainable development in the region   **Past and Present Political Theology** Dennis Vanden Auweele,Miklos Vassányi,2020-04-02 This book demonstrates how discussions of Political Theology have been a constant feature throughout philosophical modernity and that they continue to impact contemporary political debates By tracing the historical roots and detailing the contemporary outworking of Political Theology in Europe it contends that this growing field requires a broader canon in order for it to mature Political Theology is shown here to be about the diversity of relationships between religious beliefs and

political orientations First engaging with historical debates chapters re examine the relationship between personal conviction and societal orientation on such topics as the will to believe evil individualism the relationship between church and state and the relationship between belief and natural science The volume then establishes the relevance of these debates for the present day As such it invites engagement on the back and forth between religion and politics in a liberal democracy and a communist state on how communitarianism relates to religious language on the diversity of Christian and Jewish political theology and the politics of toleration By broadening out the field of Political Theology this book offers the reader a more nuanced understanding of its sustained influence on public life As such it will be of interest to academics working in Political Theology but also Theology Philosophy and Political Science more generally **Bolívar's Afterlife in the Americas** Robert T. Conn,2020-04-01 Sim n Bol var is the preeminent symbol of Latin America and the subject of seemingly endless posthumous attention Interpreted and reinterpreted in biographies histories political writings speeches and works of art and fiction he has been a vehicle for public discourse for the past two centuries Robert T Conn follows the afterlives of Bol var across the Americas tracing his presence in a range of competing but interlocking national stories How have historians writers statesmen filmmakers and institutions reworked his life and writings to make cultural and political claims How has his legacy been interpreted in the countries whose territories he liberated as well as in those where his importance is symbolic such as the United States In answering these questions Conn illuminates the history of nation building and hemispheric globalism in the Americas *The Flu Pandemic of 1918-1919* Maximiliano Fuentes Codera,2023-10-20 Within the framework of a global political and sanitarian crisis that broke out in March 2020 this book proposes a new contemporary look at the great pandemic of the 20th century the Spanish flu of 1918 1919 Based on its impact in Spain the book offers a comparative and transatlantic perspective focused on the political and cultural impact of the pandemic in Europe and Latin America The book focuses on three aspects the overwhelming presence of influenza between 1918 and 1920 its oblivion and its political and cultural traces in the interwar decades and even more and its reappearance in the face of the COVID 19 These three aspects are interconnected through a comparative analysis of the crisis of liberalism and democracy of the 1920s and 1930s and the current populist wave that is affecting the world As such this book is of great value to those interested in social and medical history across Europe and Latin America through offering a fresh outlook on the effects of the pandemic of the 20th century in the wake of the COVID pandemic that swept across the world **The Liberating Philosophy of Ignacio Ellacuría** Randall Carrera Umaña,Luis Arturo Martínez Vásquez,Luis Rubén Díaz Cepeda,2024-01-16 The Liberating Philosophy of Ignacio Ellacur a Historical Reality Humanism and Praxis is the first systematic work on the philosophy of Ignacio Ellacur a to be published in English so far The Spaniard Salvadorian philosopher murdered in Salvador in 1989 by the military maintains that philosophy is a permanent task grounded in metaphysics as first philosophy as developed within a historical reality and a preferential option for the poor As explored by this collection edited by Luis Arturo

Mart nez V squez Randall Carrera Uma a and Luis Rub n D az Cepeda Ellacur a s theory is a critical and practical proposal immersed in the colonial history of Central America but its explanatory and normative power extends to oppressed people all around the world The contributors to this volume coming from Spain Mexico Argentina Salvador and Costa Rica analyze Ellacur a s philosophy of liberation in conjunction with radical realism and strength describing it as a philosophy created by people concerned with the problems and history of our land such as our colonial past systemic poverty and dependency and responding to these concerns can offer alternatives for a true liberation of all the dominated peoples of the world
