## Number Hall:

**Uniform Numbers of the NFL** John Maxymuk, 2015-02-16 Football is a game of numbers fourth and inches the three man rush a two point conversion first down Even with the obvious numbers in the statistics rules and game situations the players uniform numbers themselves have become part of professional football and its lore NFL players like modern day gladiators are fitted head to toe in protective gear obscuring even their faces from their most loyal fans They have become largely identifiable through their uniform numbers You cannot conjure up Larry Csonka without seeing the number 39 crashing through the line of scrimmage or recall Lawrence Taylor without imagining the fear his 56 inspired in opposing quarterbacks This comprehensive reference work lists all 32 current franchises of the NFL and includes brief team histories statistics and interesting facts Each chapter ends with an all time numerical roster listing the numbers 1 through 99 in some cases beginning with 00 and everyone from Hall of Famer to replacement player who has ever worn the corresponding number for that club Four appendices are included

**Field of Consciousness Disorders** Olivia Gosseries, Steven Laureys, Caroline Schnakers, 2019-05-16 The amount of patients surviving severe brain injury has gradually increased over these last decades thanks to the development of intensive care These patients either recover quickly from coma or go through prolonged disorders of consciousness such as vegetative state unresponsive wakefulness syndrome VS UWS or minimally conscious state MCS While patients in a minimally conscious state are to some extent aware of themselves and the environment and show fluctuating but reproducible signs of consciousness patients in a vegetative state unresponsive wakefulness syndrome are awake but only show reflexive behaviors These patients are unable to communicate and present vigilance fluctuation sensory deficits as well as severe motor and language impairments Even though behavioral assessment currently remains the gold standard for diagnosis a number of studies highlights the difficulty in making the distinction between conscious and unconscious patients based on clinical examinations and show a misdiagnosis rate as high as 40% Misdiagnosis can nevertheless have serious consequences on patient's management medically but also ethically i.e. regarding end of life decision The emergence of functional neuroimaging techniques such as positron emission tomography PET and functional magnetic resonance imaging fMRI opened new

opportunities to study brain activity in patients with disorders of consciousness DOC Recent neuroimaging tools have brought new understandings on how the brain functions after coma and how these tools can complement bedside assessment by improving diagnosis and prognosis of DOC patients Indeed we know now that most patients in VS UWS present partial activation of sensory networks and impaired functional connectivity contrary to patients in MCS The reemergence of thalamo cortical connections has also been associated with recovery of consciousness whereas thalamic atrophy has been associated to chronic DOC Recent findings have also stressed the interest of neuroimaging in the management and the treatment of these patients fMRI has been used as brain computer interfaces to detect consciousness in unresponsive patients and to allow basic communication in minimally conscious patients Neuroimaging techniques are also currently being used to examine the effects of potential therapy such as pharmacological medications e g Amantadine or Zolpidem and brain stimulations e g transcranial direct current stimulation or repetitive transcranial magnetic stimulation     Announcement of Courses for the Training of Teachers and Supervisors of Music Cornell University,1912     **Bulletin** Boston Public Library,1893 Quarterly accession lists beginning with Apr 1893 the bulletin is limited to subject lists special bibliographies and reprints or facsimiles of original documents prints and manuscripts in the Library the accessions being recorded in a separate classified list Jan Apr 1893 a weekly bulletin Apr 1893 Apr 1894 as well as a classified list of later accessions in the last number published of the bulletin itself Jan 1896     **Sessional Papers** Great Britain.
