Using and Applying Mathematics at Key Stage 2 Elaine Sellars, Sue Lowndes, 2013-07-04 All pupils able children included need to be taught strategies to enable their thinking skills to progress They also need help with developing different approaches to problem solving A sustained piece of work that requires perseverance logical strategies and refinement of method and extension of the original task is not the same as a straightforward quick fix type problem Both types of problem solving need to be taught This book presents a series of activities that can be used with whole classes to provide a curriculum for the teaching of problem solving and the development of thinking skills Each tried and tested investigation is clearly explained with ideas on how to introduce the task to a class full solutions and resource sheets Activities include prisoners a fun way of generating square numbers handshakes exploring arithmetic progressions T shape an activity to lead pupils from numerical calculations to algebraic generalizations frogs encouraging systematic working and listing and opposite corners an advanced piece of work for independent learners *Number* Joe Santaniello, Noel Pritchard, 1995 Photocopiable resources for games **The Primary Teacher's Guide to the New National Curriculum** Kate Ashcroft, David Palacio, 1995 The Primary Teacher's Guide to the New National Curriculum provides a quick and accessible overview of the curriculum arrangements that came into force in August 1995 The revised National Curriculum has affected the content and modes of delivery of the primary curriculum The book outlines the main changes provides examples of creative ways of delivering the new curriculum and provides enquiry tasks to take the reflective teacher forward It covers each of the subjects of the new National Curriculum and religious education locates them within a context of whole curriculum planning looks at issues of differentiation and explores those additional elements of the curriculum that good primary schools will wish to cover With its easy to read style and practical focus this book is an essential text for all teachers and student teachers in primary schools who have a minimum amount of time to read and absorb the new Orders Such teachers will appreciate a book which clearly and succinctly identifies the changes and their implications for practice *The Sutherland Inquiry* Stewart R. Sutherland, Great Britain. Department for Children, Schools and Families, 2008 The Sutherland Inquiry HCP 62 session 2008 09 ISBN 9780102958393 is an independent inquiry remitted by the Office of the Qualifications and Examinations Regulator Ofqual and the Secretary of State for Children Schools and Families into the delivery of the National Curriculum tests in 2008 In July 2008 1 2 million pupils heard that their National Curriculum test results would be delayed The test delivery service represented a failure in customer delivery service to the pupils schools and also the markers upon whom the National Curriculum testing regime relies The primary responsibility must therefore rest with the American organisation ETS Global BV ETS which won the public contract to deliver the tests and failed its customers This report examines how this organisation secured the contract what its plans were and why its systems and process as a whole were not properly tested The report will also describe how ETS's systems failed during the test delivery process There was also a failure on the part of

the Government's Non Departmental Public Body the Qualifications and Curriculum Authority to deliver its remit The report also sets out the procurement process that QCA used to select its delivery supplier ETS and how it managed the contract The report sets out a number of recommendations on how test delivery can improve in future years and has set out a number of key priorities including that the delivery process of the National Curriculum tests should be modernised and improved in consultation with the marking community including piloting online marking that whatever process is used should be thoroughly piloted and project managed to ensure schools and pupils get their results on time that the customer service provided to markers must be vastly improved to ensure that they are properly supported and are able to access up to date information
