Competency Outcomes A Curriculum Guide for Schools of Nursing National League of Nursing Education (U.S.). Curriculum Committee, 1937 *Respiratory Nursing* Michele Geiger-Bronsky, Donna Wilson, 2008-06-16 By the 1990s it became clear to many in the nursing community that certification for respiratory nursing practice was desirable even necessary but that this could not take place without a carefully designed CORE Curriculum. This book, nearly a decade in the making, sets out such a curriculum. Put together by an expert team of respiratory nurse practitioners, the book includes 42 chapters, each blindly peer reviewed by at least 3 people for clinical content and timeliness. The book will therefore be essential for all nurses seeking the expertise needed to care for persons with respiratory disease or compromised function. *Respiratory Nursing* should be read by all respiratory and intensive care specialists, related health care professionals, and teachers and students in graduate and undergraduate nursing programs.
