Cybersecurity Global Trend:

Current Trends in the Global Economy. From the Perspective of Japanese and Polish Economists Bogusława Drellich-Skulská, Mami Hiraike Okawara, 2021-09-09 The monograph is our latest publication created thanks to the scientific cooperation between Polish and Japanese researchers from the Department of International Business at the Wrocław University of Economics and Business and Takasaki City University of Economics. The results of their research provide an overview of selected trends and challenges present in the global economy. As a mosaic of diverse research subjects this book is dedicated to readers who look for multidimensional insights into the modern trends and phenomena occurring in the global economy. This monograph is recommended to students of economics who want to acquire knowledge about the selected tendencies and researchers who would like to broaden their knowledge in the area of current trends in the globalized world economy as well as entrepreneurs and business practitioners seeking information about the cultural aspects of the global economic phenomena.

Cyber Security 2025 Trends Mark Hayward, 2025-04-23 Advanced Persistent Threats (APTs) are complex sophisticated cyber threats that infiltrate networks with the specific aim of stealing data or compromising sensitive information over an extended period. Unlike traditional cyber attacks which are generally opportunistic and hit and run in nature, APTs are characterized by their calculated approach and sustained efforts. Attackers behind APTs often take immense time to plan their infiltration using a combination of social engineering, malware, and zero-day exploits to gain access to target environments. Once inside, they maintain a presence undetected for weeks, months, or even years, establishing themselves in the victim's network to carry out their objectives while remaining hidden from standard security measures.
