Theories of Alienation R.F. Geyer,D.R. Schweitzer,2012-12-06 The original papers which appear in this volume were initially presented in a series of sessions of the Ad Hoc Group on Alienation Theory and Research at the 1974 World Congress of Sociology in Toronto Canada This group was organized by the editors as a result of their longstanding research and teaching interest in the field The purpose of the Toronto sessions was to provide an international forum where scholars and researchers could come to gether for a personal exchange of ideas and research findings To our know ledge this was the first forum of its kind concerned specifically with aliena tion theory and research More than fifty theoretical and empirical papers from thirteen countries and several overlapping disciplines were organized into panels and workshops during the span of four days The response to these sessions indicates that interest in the study of alienation by philosophers and social scientists continues unabated The Toronto sessions were organized largely around a fundamental concern for further theoretical development and conceptual clarification in the alienation field The papers selected for this volume reflect this thematic concern Although many excellent empirical papers were presented it was generally felt that meaningful empirical research would benefit from a continued elaboration and refinement of alienation theory The present collection is consequently geared to problems of meaning theory and method Considerable emphasis is also placed on a critical evaluation of the alienation theme as it has evolved from social philosophy to empirical social research *Aspects of Macro-sociological Methodology* Sten T. Anttila,Sten Anttila,1993 **Encyclopedia of Sociology: Japa-publ** ,2000 *Sourcebook of Labor Markets* Ivar Berg,Arne L. Kalleberg,2012-12-06 A distinguished roster of contributors considers the state of the art of the field at the turn of the 21st century and charts an ambitious agenda for the future Following what the editors describe as an evolutionist

approach to the study of labor markets the chapters address issues of continuity and discontinuity in a wide range of topics including markets and institutional structures employment relations and work structures patterns of stratification in the United States and public policies opportunity structures and economic outcomes **The Cumulative Book Index** ,1995 A world list of books in the English language **Books in Print Supplement** ,1994 **General Catalog** Colorado State University,1976 **Comparative Methods in the Social Sciences** Alan Sica,2005 **Problems in International Comparative Research in the Social Sciences** Netherlands. Ross DeWitt,2000 DeWitt is the pseudonym of a social scientist who began studying American farm families in the middle 1950s and constructed interlocking theories to explain the apparent contradictions he found He resumed the project in 1975 collected more data from 1979 and reports his work here He uses theories of social action and social change adapted from modified functionalist and symbolic interactions perspectives to identify types of role sharing by husbands and wives and the changing phases of role sharing The young farm families he first studied were adapting to the changing requirements and challenges of labor intensive family farming after World War II Annotation copyrighted by Book News Inc Portland OR International Social Science Journal ,1981 The Postcolonial State and the Development Agenda Samuel Inuwa Zalanga,2000 **Macro-Sociological Theory** S N Eisenstadt,H J Helle,1985-10 This important and much needed two volume work takes stock of the new approaches in sociology which have developed since the 1960s It presents from different vantage points the major dimensions of recent theoretical controversy and highlights the growing recognition of problems common to all areas of sociological endeavour Significant new contributions to ethnomethodology to social psychology and to the study of institutions are examined in Macro Sociological Theory and its companion volume Micro Sociological Theory Together they show that the traditional line of division between structuralist macro theories and interactionist micro theories is increasingly being eroded These stim
