Metropolitan Critic Non Fiction 1968 1973:

The Metropolitan Critic Clive JAMES,1995 *Elizabeth Bishop's Prosaic* Vidyan Ravinthiran,2015-07-01 Elizabeth Bishop is now recognized as one of the greatest poets of the twentieth century a uniquely cosmopolitan writer with connections to the US Canada Brazil and also the UK given her neglected borrowings from many English authors and her strong influence on modern British verse Yet the dominant biographical psychoanalytical approach leaves her style relatively untouched and it is vital that an increasing focus on archival material does not replace our attention to the writing itself Bishop s verse is often compared with prose sometimes insultingly writing fiction she worried she was really writing poems But what truly is the difference between poetry and prose structurally conceptually historically speaking Is prose simply formalized speech or does it have rhythms of its own Ravinthiran seeks an answer to this question through close analysis of Bishop s prose like verse her literary prose her prose poems and her letter prose This title is a provocation It demands that we reconsider the pejorative quality of the word prosaic playing on mosaic Ravinthiran uses Bishop s thinking about prose to approach for the first time her work in multiple genres as a stylistic whole Elizabeth Bishop s Prosaic is concerned not only with her inimitable style but also larger questions to do with the Anglo American shift from closed to open forms in the twentieth century This study identifies not just borrowings from but rich intertextual relationships with writers as diverse as among others Gerard Manley Hopkins W H Auden Virginia Woolf Flannery O Connor and Dorothy Richardson Though Bishop criticized Woolf she in particular is treated as a central and thus far neglected precursor crucial to our understanding of Bishop as a feminist poet Finally the sustained discussion of how the history of prose frames effects of rhythm syntax and acoustic texture in both Bishop s prose proper and her prosaic verse extends a body of research which seeks now to treat literature as a form of cognition Technique and thought are finely wedded in Bishop s work her literary forms evince a historical intelligence attuned to questions of power nationality tradition both literary and otherwise race and gender

Reconstructing Criticism Philip Smallwood,2003 This study aims to bring the modern theory of literary criticism and Pope s *Essay on Criticism* of 1711 into a more productive and interesting association than critical historical structures have generally allowed Smallwood marks out in current terms and in depth the specialized theoretical and aesthetic problem of defining criticism He recognizes that criticism no more than literature or art cannot be finally codified or defined but insists on the need for clarity in the exposition of criticism s purposes and a fuller consciousness of a common community of practice available to audiences outside the academic fold Affirming the unfailing currency and utility of the term criticism as new languages have taken over the critical domain or have sought to replace or abolish literature Smallwood distinguishes between the normative definitions that are everywhere apparent in modern theory of criticism and the advantages to conceptual comprehension achieved by Pope s poetic idea of criticism in the *Essay* *The Many Facades of Edith Sitwell* Allan Pero,Gyllian Phillips,2017-06-13 A fascinating book that takes us deep into Edith Sitwell s world of artifice disguise

high camp and verbal ingenuity In these essays Sitwell emerges as a central figure in an alternative avant garde in early twentieth century Britain Faye Hammill author of *Sophistication A Literary and Cultural History* Establishing Edith Sitwell at the center of British modernism this volume showcases her many achievements in poetry autobiography novel writing criticism art and performance Forgoing the gossip about her eccentric appearance and self fashioned persona that has too often overshadowed serious writing about her work the contributors explore how Sitwell combined persona and poetry to foster an outpouring of iconoclastic creativity The Many Facades of Edith Sitwell argues that Sitwell was crucial to the development of a British avant garde that operated alongside the conventionally accepted transatlantic modernism of Ezra Pound and T S Eliot With Sitwell as an influential literary player and social architect the British interwar arts scene was not an ascetic escape from personality as the modernism of Pound and Eliot has often been characterized but an alternative space of flamboyant extravagant and ornate performance Allan Pero is associate professor of English at the University of Western Ontario Gyllian Phillips is associate professor of English studies at Nipissing University **A Portrait of the Artist as Australian** Paul Matthew St. Pierre,2004 This book is the first critical assessment of Humphries entire oeuvre especially his career as an author Arguing that Humphries is one of Australia s greatest writers the author reveals a multi faceted artist whose success is rooted in the British music hall tradition Dadaism and grotesquerie Being Australian has also fundamentally shaped the performer and writer and the author s defence of Humphries against charges of expatriatism is pertinent to the debate on Australian national identity **The British National Bibliography** Arthur James Wells,1995 World Authors, 1980-1985 Vineta Colby,1991 Representing a broad range of ethnic diversity these in depth profiles present fascinating accounts of lives and careers the circumstances under which works were produced and their literary significance Each profile also includes critical evaluation a list of the author s principal works with date first published a list of major critical works and a portrait or photograph where available **Twentieth-century Literary Criticism** Gale Research Company,2005 Excerpts from criticism of the works of novelists poets playwrights and other creative writers 1900 1960
