# Metropolitan Crime Patterns

**Francis T. Cullen, Pamela Wilcox**

## **Metropolitan Crime Patterns:**

*Metropolitan Crime Patterns* Robert M. Figlio, Simon Hakim, George F. Rengert, 1986 This is one of the first books to examine crime trends from a metropolitan wide perspective. Topics include the hardening of the inner city crime in suburbia, mobility patterns of offenders, the effect of neighbourhood characteristics on crime variations, in police expenditures and others.

**The Oxford Handbook of Criminological Theory** Francis T. Cullen, Pamela Wilcox, 2013-03-21 This handbook presents a series of essays that captures not the past of criminology but where theoretical explanation is headed. The volume is replete with ideas, discussions of substantive topics with salient theoretical implications and reviews of literatures that illuminate avenues along which theory and research evolve.

**Classics in Environmental Criminology** Martin A. Andresen, Paul J. Brantingham, J. Bryan Kinney, 2010-05-25 A careful analysis of environmental factors is key to understanding the causes of crime to solving crimes and eventually helping to predict and prevent them. **Classics in Environmental Criminology** is a comprehensive collection of seminal pieces from legendary contributors who focus on the role that the immediate environment plays in the occurrence of a crime. Defines the field. Divided into three parts, the book begins by highlighting the development of environmental criminology as a discipline through its origins in spatial criminology. It examines social disorganization theory which explains criminal activity with reference to the characteristics of the community that delinquents live in. It then discusses the ecology of crime with reference to macroenvironments and microenvironments. The next section introduces concepts such as routine activity theory, the geometric theory of crime, the rational choice theory of offending and crime pattern theory. Offers perspectives on prevention. The last part focuses on the concept of crime prevention, examines the idea of altering the environment in order to prevent crime and discusses situational crime factors and efforts to reduce the opportunities for crimes to be committed. It considers the impact of routine activities on crime prevention initiatives and advocates a flexible approach to crime prevention based on the dynamic nature of our environment. The book concludes with a chapter outlining how environmental criminology has evolved in recent years and provides a future outlook on where it may be headed. Invaluable as a textbook and as a professional reference, this volume is a comprehensive survey of a critical field in contemporary criminological theory. Offering insight assembled by top academic figures within the criminology community, this work is destined to provoke further inquiry and research.

**Forensic Criminology** Andy Williams, 2014-09-02 This text provides an examination of the aetiological development of forensic criminology in the UK. It links the subjects of scientific criminology, criminal investigations, crime scene investigation, forensic science and the legal system and it provides an introduction to the important processes that take place between the crime scene and the courtroom. These processes help identify, define and label the criminal and are crucial for understanding any form of crime within society. The book includes sections on the epistemological and ontological philosophies of the natural sciences, the birth of scientific criminology and its search for the criminal body, the development of early forms of

forensic science and crime scene investigation investigating crime information material and evidence crime analysis and crime mapping scientific support and crime scene examination and forensic science and detection methods and forensics in the courtroom The text combines coverage of historical research and contemporary criminal justice processes and provides an introduction to the most common forensic practices procedures and uses that enable the identification and successful prosecution of criminals Forensic Criminology is essential for students of criminology criminal justice criminal investigations and crime science It is also useful to those criminal justice practitioners wishing to gain a more in depth understanding of the links between criminology criminal investigations and forensics techniques Criminological Theory Stephen G.

Tibbetts,Craig Hemmens,2009-10-15 This book provides the best of both worlds authored text sections with carefully selected accompanying readings covering criminological theory from past to present and beyond The articles from leading journals in criminology and criminal justice reflect both classic studies and state of the art research Key Features Begins with an introductory chapter that presents a succinct overview of criminological theory and briefly describes the organization and content of the book Features How to Read a Research Article a perfect introduction to understanding how real world research is organized and delivered in the journal literature Includes a mini chapter for each Section with figures and tables that present basic concepts and provide a background for the Readings that follow Provides key terms web resources and thought provoking discussion questions for each Section along with questions for each Reading to help students develop their critical thinking skills Instructor Resources on CD include a test bank PowerPoint slides for each section classroom activities and more A Student study site provides additional articles self study quizzes e flashcards and more Crime Trends in the Twin Cities Metropolitan Area ,1984 Patterns in Crime Paul J. Brantingham,Patricia L. Brantingham,1984 The Twin Cities Metropolitan Area, Crime Incidence and Criminal Justice Resources Metropolitan Council of the Twin Cities Area,1974

City Crime Rankings 2015 Kathleen O'Leary Morgan,Scott Morgan,Rachel Boba Santos,2015-01-20 Using the latest FBI crime statistics City Crime Rankings 2015 provides easy to understand crime comparisons for cities and metropolitan areas throughout the United States Numbers rates and trends for total crime violent crime murder rape robbery aggravated assault property crime burglary larceny theft and motor vehicle theft are presented in both alphabetical and rank order for all metro areas and cities of 75 000 or more Numbers and rates of police in cities are also included A revised introduction gives a summary of and notes about the data as well as the methodology behind the overall rankings allowing researchers to cite statistics with context City Crime Rankings offers thorough and accurate statistics for more than 380 metropolitan areas and nearly 450 cities featuring Methodology Distribution Analysis Notes Regarding City and Metro Crime Data 2014 Metropolitan Crime Rate Rankings 2014 City Crime Rate Rankings Metropolitan Area and City Crime Statistics Metropolitan and City Populations **The history of the year 1876, containing 'The Year book of facts' and 'The Annual summary'**.
