Boundary Between Mexico and Guatemala Frederick Theodore Frelinghuysen, 2016-06-21 Excerpt from Boundary Between Mexico and Guatemala Message From the President of the United States Transmitting a Communication From the Secretary of State Relative to the Boundaries Between Mexico and Guatemala Sir In previous dispatches I have had occasion to mention the unsatisfactory relations between Guatemala and Mexico arising from their unsettled boundary line I have now to report that these relations are growing still less satisfactory and that an open rupture between the two countries is not an improbable result of the near future The state of Chiapas in Mexico as well as Guatemala belonged to the old captain generalcy up to the period of the termination of the latter when the people of the former state elected to attach themselves to Mexico under the short reign of Iturbide whom the Guatemaltecos new charge with having forced the state from them A certain portion of Soconusco a province of Chiapas has become the modern bone of contention between the two countries not so much because of the value of the territory perhaps as because of an important river with a fair harbor on the Pacific which traverses it About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Dynamics and Conflicts in a Cross-Border Region Mónica Toussaint, Marisol Garzón, 2023-04-07 This volume explores several issues pertinent to the history of the cross border region between Mexico Guatemala and Belize from new explanatory approaches in order to reflect on a history and a reality that are shared by three neighbouring societies emphasizing the actors and local practices that shape cross border dynamics This analysis is contributed by eight specialists who study aspects that are fundamental to our understanding of a process involving various persons and institutions in a specific space Dynamics and Conflicts in a Cross Border Region addresses an issue of current relevance through studies that focus on the problems inhabitants of the region have faced over the years the realities of a porous border the existence of

family trade and cultural ties that surpass the administrative limits negotiated by the states late in the 19th century the impact of the internal conflicts of neighbour countries in the border space experiences of exile and refuge at the border and the violence they entail the role of local authorities in managing regional problems the pending task of cross border territorial organization the efforts of local institutions to promote regional development and the presence of phenomena like contraband drug trafficking organized crime and human trafficking in an increasingly complex and challenging space This provides a way to use the region s history as a springboard for conceiving of mechanisms by which we can together face the challenges presented today to the inhabitants of the cross border region between Mexico Guatemala and Belize This book will be a valuable resource for students and scholars of Latin American history and Social History

Constructing Citizenship Catherine A. Nolan-Ferrell, 2012-05-01 During the late nineteenth and early twentieth centuries people living in the coffee producing region of the Sierra Madre mountains along the Pacific Coast of Mexico and Guatemala paid little attention to national borders The Mexican Revolution particularly during the 1930s reconstruction phase ruptured economic and social continuity because access to revolutionary reforms depended on claiming Mexican national identity Impoverished often indigenous rural workers on both sides of the border used shifting ideas of citizenship and cultural belonging to gain power and protect their economic and social interests With this book Catherine Nolan Ferrell builds on recent theoretical approaches to state formation and transnationalism to explore the ways that governments elites and marginalized laborers claimed and contested national borders By investigating how various groups along the Mexico Guatemala border negotiated nationality *Constructing Citizenship* offers insights into the complex development of transnational communities the links between identity and citizenship and the challenges of integrating disparate groups into a cohesive nation Entwined with a labor history of rural workers Nolan Ferrell also shows how labor struggles were a way for poor Mexicans and migrant Guatemalans to assert claims to national political power and social inclusion Combining oral histories with documentary research from local regional and national archives to provide a complete picture of how rural laborers along Mexico's southern border experienced the years before during and after the Mexican Revolution this book will appeal not only to Mexicanists but also to scholars interested in transnational identity border studies social justice and labor history *Narrative of an Official Visit to Guatemala from Mexico* George Alexander Thompson, 1829
