The Wicked Problems of Police Reform in Canada Laura Huey,Lorna Ferguson,Jennifer L. Schulenberg,2022-08-12 This book looks at police reform in Canada arguing that no significant and sustainable reform can occur until steps are taken to answer the question of What exactly do we want police to do Adding challenge to this is that setting boundaries on what we expect the police to do requires grappling with the complex social problems we ask them to resolve In public policy language these are wicked problems social or cultural issues frequently seen as intractable Authors Huey Ferguson and Schulenberg all policing scholars draw on a unique collection of data to explore these issues over 20 years of research 2000 2021 ranging from in depth interviews surveys and field observations to document analysis and systematic social observation Pooling this data generates a national level picture of changes in the policing operational environment over these decades This book focuses on four particular wicked problems mental health substance misuse homelessness missing persons with causes and potential preventative treatments that lie primarily outside the criminal justice system and yet continue to be treated as policing problems Bringing about changes in public policing requires changes in public policy and these are precisely the types of wicked problems that need innovative policy solutions This book is suitable for a wide range of audiences within and outside Canada including law enforcement and community leaders scholars and policy experts who specialize in policing students of criminal justice organizations and management and citizen consumers of information about policing *Erased* Marilee Strong,Mark Powelson,2010-06-10 Based on five years of investigative reporting and research into forensic psychology and criminology Erased presents an original profile of a widespread and previously unrecognized type of murder not a hot blooded spur of the moment crime of passion as domestic homicide is commonly viewed but a cold blooded carefully planned and methodically executed form of erasure These crimes are often committed by men with no criminal record or history of violence whatsoever men leading functional and often successful lives until the moment they kill the women and sometimes children they claimed to love A surprising number go on to kill a second or even third wife or girlfriend often in exactly the same way In more than fifty chilling case studies Marilee Strong examines the strange and complex psychology

that drives these killers from the murder a century ago that inspired the novel An American Tragedy to Scott Peterson Mark Hacking Jeffrey MacDonald Ira Einhorn Charles Stuart Robert Durst Michael White Barton Corbin and many others Erased also looks at how these men manipulate the legal system and exploit loopholes in missing persons procedures and death investigation exposing how easy it can be to get away with murder Women Police Chloe Owings,1925 Just Advocacy?

Inside Man John McMahon,2026-01-13 In this sequel to McMahon's electrifying series debut Head Cases Gardner Camden and the PAR team return to investigate potentially connected cases FBI Agent Gardner Camden is an analytical genius with an affinity for puzzles He and his squad of brilliant yet quirky agents make up the Patterns and Recognition PAR

unit the FBI's hidden edge brought in for cases that no one else can solve PAR's latest case involves a militia group stockpiling weapons. When their confidential informant in the case is killed, it quickly becomes clear that the militia did not kill him. As the squad looks into the evidence surrounding his murder, an unidentified man is caught on camera with their informant. This mystery man's picture is connected to another case at the FBI: an unsolved series of murdered women buried in the ground in north Florida. Could they have uncovered a serial killer? And if so, what is his connection to their C.I.? As PAR juggles an investigation into both the dead women and the militia, they enroll a new informant only to find the case escalating in dangerous ways. How will PAR handle a case that increasingly looks like a terrorist plot? And in the serial case with no puzzles or witnesses and few leads, how will a group set up to decode riddles be successful?

The Elgar Companion to Development Studies David Clark, 2006. If handbooks can be inspiring, this is it. Like a true companion, it takes in its stride conversations both big and small. Its entries do not just present an international and multidisciplinary mix, but true to life, they work on several different scales. And importantly, the book makes its authority evident. For it is like an extended website, but with all the added advantages of an encyclopaedia that actually tells you about the authors and the sources on which they have drawn. The resulting compilation is highly intelligent, thoughtful, and above all, usable.
