Michael Handbook A Channeled System For Self Understanding:

The Michael Handbook José Stevens, Simon Warwick-Smith, 1988 What Michael fans have been waiting for a reference book to the Michael system that is fun and easy reading Michael a channeled being describes how people behave through soul ages essence roles and personality overleaves Channeling

Psychic Psychology John Friedlander, Gloria Hemsher, 2011-08-09 Two of America's most experienced and respected psychic teachers present their system of the subtle energy of interpersonal relationships in a book that will appeal to anyone wishing to understand and improve their relationships within their families partnerships workplaces and wider communities This useful guide from two of America's preeminent psychics is unique in its focus on individual psychology and interpersonal relationships It begins with simple meditations during which practitioners learn how to recognize their own psychic energy and also determine if that energy is constrained Psychic Psychology shows how to free energy through such tools as grounding clearing psychic entanglement and finding the space from which to respond most openly resourcefully and generously to life An entire chapter is devoted to exploring the specific energies men and women have based on their biological differences and helping them to deal with their own energy and that of the other sex Friedlander and Hemsher present the everyday usefulness of clairvoyant skills within a big picture where they explain that we create our reality but do not control it and that the personality like the soul is eternal and always growing The final section describes how psychic skills can be applied in real world contexts which are often ambiguous and contradictory The book explores common issues such as dealing with self-doubt without jumping to unwarranted blind confidence and how to communicate effectively with clear boundaries
