## **Othello As Tragedy Some Problems Of Judgement And Feeling:**

**Othello As Tragedy** Jane Adamson,1980-10-30 Jane Adamson analyses Othello and assesses the title character s complex tragedy *Shakespeare, Aphra Behn and the Canon* Lizbeth Goodman,W.R. Owens,2013-08-21 A clear introduction to the idea of the canon exploring the process by which certain works and not others receive high cultural status The work of Shakespeare and Aphra Behn is used to illustrate and challenge this process **Shakespeare Against War** Robert White,2024-05-31 Whilst Shakespearean drama provides eloquent calls to war more often than not these are undercut or outweighed by compelling appeals to peaceful alternatives conveyed through narrative structure dramatic context and poetic utterance Placing Shakespeare s works in the history of pacifist thought Robert White argues that Shakespeare s plays consistently challenge appeals to heroism and revenge and reveal the brutal futility of war White also examines Shakespeare s interest in the mental states of military officers when their ingrained training is tested in love relationships In imagery and themes war infiltrates love with problematical consequences reflected in Shakespeare s comedies histories and tragedies alike Challenging a critical orthodoxy that military engagement in war is an inevitable and necessary condition White draws analogies with the experience of modern warfare showing the continuing relevance of Shakespeare s plays which deal with basic issues of war and peace that are still evident *Fundamental Shakespeare* Maryam Beyad,Ismail Salami,2015-11-25 The contributions to this book examine various facets of the work of Shakespeare from an Eastern perspective As such Fundamental Shakespeare sheds fresh light on and offers new insights to a wide range of topics including politics psychology and discourse Divided into three separate categories this volume brings to the fore long standing but under explored areas of Shakespeare studies **Shakespeare's Tragedies** Dieter Mehl,1986 Twelve plays are examined individually regarding their origins stage and critical histories and the problems associated with their categorization as tragedy Shakespeare's Soliloquies Wolfgang Clemen,1987 Twenty seven soliloquies are examined in this work illustrating how the spectator or reader is led to the soliloquy and how the drama is continued afterwards **William Shakespeare: The Complete Works** William Shakespeare,2005-04-21 The second Oxford edition of Shakespeare s Complete Works reconsiders every detail of their text and presentation in the light of modern scholarship The nature and authority of the early documents are re examined and the canon and chronological order of composition freshly established Spelling and punctuation are modernized and there is a brief introduction to each work as well as an illuminating and informative General Introduction Included here for the first time is the play The Reign of King Edward the Third as well as the full text of Sir Thomas More This new edition also features an essay on Shakespeare s language by David Crystal and a bibliography of foundational works The Properties of Othello James L. Calderwood,1989 James L Calderwood is surely among the liveliest and most insightful Shakespearean critics writing today In this book he offers an extended meditation on Othello employing the concept of property as a way of examining the play According to Calderwood property lines in Shakespeare s Venice divide women from

men black from white outsiders from insiders barbaric Turks from civilized Christians land from money and monologue from dialogue Most of all these lines draw a magic circle around the idealized identity of the Moor Making use of theorists such as Bakhtin and Lacan Calderwood demonstrates Othello s semiotics of self as possessive self capitalizer of an inviolate I and marital capitalist who tags Desdemona with a personal mine that helps materialize and mirror his inner value Yet under the ministrations of Shakespeare and Iago property dissolves the boundaries it draws between inner and outer self and other owner and owned Chapters on barbarism and the evils of nobility the status of women the role of iterance in defining and destroying identities and the mediating metadramatics of Iago suggest how the commercial associations of property ownership investment exchange alienation not only inform the action of Othello but reveal its artistic properties as well
