American Consciousness Caroline Jean Acker, Sarah W. Tracy, 2004 Virtually every American alive has at some point

 history the way they have been perceived has varied extensively Just as the corrupting cigarettes of the early twentieth
 century coffin nails to contemporaries became the glamorous accessory of Hollywood stars and American GIs in the 1940s
 only to fall into public disfavor later as an unhealthy and irresponsible habit the social significance of every drug changes
 over time The essays in this volume explore these changes showing how the identity of any psychoactive substance from
 alcohol and nicotine to cocaine and heroin owes as much to its users their patterns of use and the cultural context in which
 the drug is taken as it owes to the drug s documented physiological effects Rather than seeing licit drugs and illicit drugs
 recreational drugs and medicinal drugs hard drugs and soft drugs as mutually exclusive categories the book challenges
 readers to consider the ways in which drugs have shifted historically from one category to another From publisher s
