Crucible of Light Elizabeth Drayson,2025-12-02 The epic history of Europe's rich Islamic heritage exploring the endless complexities of this centuries long relationship Few readers are aware how much Europe owes to its Islamic heritage this book aims to restore the central place of Muslim culture in the continent's history while exploring the endless complexities that this vexed relationship creates At a time when Islam is so narrowly identified with terrorism and migration in Europe *Crucible of Light* is a welcome and necessary corrective The contested but fruitful relationship between Islam and Europe begins in 711AD with the Moorish invasion of Spain and continues to the present *Crucible of Light* tells the story of the conquest and reconquest of Spain over an epic 800 year period the meteoric rise of Arabo Norman Sicily the Ottoman renaissance of the sixteenth to eighteenth centuries and the ebb and flow of Balkan history and the fate of contested islands like Cyprus and Malta with their very different outcomes This scale of history can only be done by focusing on individual stories and key places and above all by tracking themes Winding through this story are of course epic battles and sieges with Jihad and Crusade mirroring each other but also periods of extraordinary collaboration and sharing Europe owing its initial rediscovery of classical learning and science via the vast libraries in Spain scoured for enlightenment by Muslim Jewish and Christian scholars alike Moorish architecture and gardens and geometric design not to mention the life of the harem eventually feed into the insatiable appetite for Orientalism in the nineteenth century which itself was the sequel to an earlier obsession for oriental goods in the sixteenth and seventeenth century courts In between there are patterns of hidden faiths and swapped identities as people or buildings adapt or change sides The Hagia Sophia in Istanbul at one end of the Mediterranean and the Great Mosque in Cordoba with its huge cathedral dropped into the middle of it bookend the kinds of religious inversions we find in this epic story Travel and exchange of people ideas and merchandise are an undercurrent throughout arriving inevitably in Venice in its golden age cutting across opposite tides of rivalry intolerance and military confrontation **Products, Users, and Popular Luxury in Early Modern Greece** Artemis Yagou,2024-08-05 This book

analyses aspects of the material culture of early modern Greece from an object based perspective using surviving artefacts from that period as primary sources A printed book a wine jug an ecclesiastical embroidery and a pocket watch are used as entry points to examine the consumer practices of the emerging Greek bourgeoisie under Ottoman rule in the long eighteenth century The acquisition and usage of novel products especially imported ones by Greeks was connected to personal expression identity building and self determination in the context of the Enlightenment The enjoyment of innovative artefacts opened new horizons to them and facilitated their individual and collective empowerment The originality of the book lies in its eclectic and interdisciplinary approach towards early modern Greek material culture an under researched topic The study is embedded within contemporary discourses on transnational trade the materiality of everyday life pleasurable consumption and the negotiation of identities This volume will appeal to students and scholars of early modern and modern Greek history Ottoman history European history material culture history of technology museum studies and cultural heritage studies as well as museum professionals collectors and the wider educated public **The Commercial and Financial Chronicle** ,1928
