Oulipo Compendium:

Oulipo Compendium Harry Mathews, Alastair Brotchie, 2005 A late 20th century kabala a labyrinth of literary secrets that will lure the uninitiated into rethinking everything they know about books and writing The definitive encyclopedia of contemporary word magic *The Oulipo and Modern Thought* Dennis Duncan, 2019-07-08 The impact of the Oulipo Ouvroir de Litt rature Potentielle one of the most important groups of experimental writers of the late twentieth century is still being felt in contemporary literature criticism and theory both in Europe and the US Founded in 1960 and still active today this Parisian literary workshop has featured among its members such notable writers as Italo Calvino Georges Perec and Raymond Queneau all sharing in its light hearted slightly boozy bonhomie the convivial antithesis of the fractious volatile coteries of the early twentieth century avant garde For the last fifty years the Oulipo has undertaken the same simple goal to investigate the potential of constraints in the production of literature that is formal procedures such as anagrams acrostics lipograms texts which exclude a certain letter and other strange and complex devices Yet far from being mere parlour games these methods have been frequently used as part of a passionate though sometimes satirical involvement with the major intellectual currents of the mid twentieth century Structuralism psychoanalysis Surrealism analytic philosophy all come under discussion in the group s meetings and all find their way in the group s exercises in ways that while often ironic are also highly informed Using meeting minutes correspondence and other material from the Oulipo archive at the Biblioth que nationale de France The Oulipo and Modern Thought shows how the group have used constrained writing as means of puckish engagement with the debates of their peers and how as the broader intellectual landscape altered so too would the group s conception of what constrained writing can achieve

Encyclopedia of the New York School Poets Terence Diggory, 2009 An A to Z reference to writers of the New York School including John Ashbery who is often considered America s greatest living poet Examines significant movements in literary history and its development through the years **Tactical Publishing** Alessandro Ludovico, 2024-01-16 How to level up to the next transformative phase of publishing with a critical methodology that transcends the dichotomy of paper and digital media production Publishing is experiencing one of the most transformative phases in its history In Tactical Publishing a sequel to Post Digital Print Alessandro Ludovico explores the forces driving this historical phase highlighting the tremendous opportunities it presents Our task he believes is to develop an alternative publishing system that transcends the dichotomy between paper and digital media He focuses first on the two activities on which publishing is premised reading and writing with an emphasis on writing machines and post truth in the latter and then deconstructs the concept proposing alternative strategies inspired by recent practices and unconventional uses of technology Ludovico shows how the radical and strategic use of print in the past can serve as the basis for our transition to the next phase of publishing He argues that the new ecology of publishing should be based on three main elements the stimulation of our senses the role of software in forming the publishing infrastructure and the importance of

archives During this transition from the current post digital phase to the next phase independent publishers and artists as well as readers and machines will enable new structures and actions that realize the potential of publishing and the preservation of content thereby enriching social practices The author also considers the crucial social role played by new forms of libraries as artists and publishers shape the coming publishing world in its various manifestations Combining analytical accounts of tactical strategies with examples from artworks and experimental practices the book concludes with a manifesto for publishing in the twenty first century and an appendix with a selection of one hundred publications representing the periodic table of future publishing

Sampling Media David Laderman, Laurel Westrup, 2014-02-03

This book puts sampling studies on the academic map by focusing on sampling as a logic of exchange between audio visual media While some recent scholarship has addressed sampling primarily in relation to copyright this book is a first a critical study of sampling and remixing across audio visual media Of special interest here are works that bring together both audio and visual sampling music that samples film and television underground dance and multimedia scenes that rely on sampling Internet memes that repurpose music videos trailers and news broadcasts films and videos that incorporate a wide range of sampling aesthetics and other provocative variations Comprised of four sections titled roots scenes cinema and web this collection digs deep into and across sampling practices that intervene in popular culture from unconventional or subversive perspectives To this end Sampling Media extends the conceptual boundaries of sampling by emphasizing its inter medial dimensions exploring the politics of sampling practice beyond copyright law and examining its more marginal applications It likewise puts into conversation compelling instances of sampling from a wide variety of historical and contemporary global and local contexts

Encyclopaedia Acephalica Georges Bataille, Robert Lebel, Isabelle Waldberg, 1995 Atlas Arkhive

Three Documents of the Avant Garde The ideas of Georges Bataille 1897 1962 are increasingly being recognised as offering vital insights into whole areas of human existence The texts presented here written by Bataille and friends are written in the form of a dictionary and being written for a general audience are more accessible than much of his other work Witty poetic sardonic sometimes erotic they provide a concise introduction to his ideas

Many Subtle Channels Daniel Levin

Becker, 2012-04-30 The youngest member of the Paris based experimental collective Oulipo Levin Becker tells the story of one of literature s quirkiest movements and the personal quest that led him to seek out like minded writers artists and scientists who are obsessed with language and games and who embrace formal constraints to achieve literature s potential
