## **Our Elections:**

**How the Obama Administration Threatens to Undermine Our Elections** John Fund, 2010-06-29 One of the easiest ways to increase public cynicism about elections is to change the rule book to make the laws governing how we vote more vague and less rigorous Reforms have been passed amid claims they would increase voter turnout They ha *If God Won Our Elections* Tim Morgan, 2014-07-23 Is America a nation under God or a nation getting over God In the United States the Christian cause is in full retreat Courts enshrine the counterfeit right of same sex marriage Prayer long since made illegal in public school is increasingly pushed from other public places and occasions Policies of the social welfare state owe more to the principles of Robin Hood than of Jesus Crosses erected in memorials to fallen soldiers are threatened with demolition Immigrants are treated as pawns of politicians instead of the strangers Jesus spoke of Everyone worries about being on the wrong side of history but few seem concerned about being on the wrong side of God In the midst of it all voting booths are declared a God free zone But what If God Won Our Elections What if voters applied the teachings of the Bible to their daily lives and the choices they made as citizens If we return to the Bible and trust it to guide our decisions instead of getting over God America can again be the nation the Declaration of Independence and the blood of fallen heroes has made us One nation under God If God Won Our Elections is the resource that answers these questions for the Christian voter by opening up the greatest voter guide ever written The Holy Bible What Do We Expect from Our Government? Beryl A. Radin, Joshua M. Chanin, 2012-07-10 Much has changed in US politics since the historic 2008 election While the press covers the actions and agendas of the new administration other impacts of this political shift have not received as much attention These changes have forced the nation to rethink the necessary role of government the role of the private market the impact of science technology and information and ultimately our place in the world What Do We Expect From Our Government provides a glimpse at this set of developments by focusing on a number of policies such as climate change immigration and terrorism as well as governance processes such as oversight elections and campaigns and regulation It highlights the role of research in public sector decision making the role of the academy the relationship between economic imperatives and scientific information and dealing with uncertainty and change In addition it includes attention to broader issues such as national economic and fiscal policies and strategies for assuring equity and access in programs **A Compilation of Cases of Contested Elections to Seats in the Assembly of the State of New York with the Reports of Committees on Privileges and Elections, and the Action of the House Thereon, from 1777 to 1899 Inclusive** New York (State).
