Our American Ethos Renewing Our Trust And Belief In America

KJ Lindholm-Leary

Our American Ethos Renewing Our Trust And Belief In America:

Our American Ethos Jason M Ritchie,2005-08 American Ethos is the idea that the achievement of mutually beneficial goals is the best way to grow our national unity and ensure our future as a free and democratic America It is the prospect that we can establish basic ideals we all share as Americans not based on a particular social value special interest partisan or local concern but rather by looking at our country and our people as a whole group not a collection of competing minorities We must unify and move forward America's Promise Don E. Eberly,1998 Noted scholar and activist Don Eberly details the history achievements and goals of the civil society movement He demonstrates why civil society is crucial to the preservation of democratic values and institutions and he explains why the concern over America s moral decay must be our major priority Our society argues Eberly cannot thrive and perhaps cannot survive without strong social institutions a vibrant moral order and an active intellectual grass roots dimension Religious Politics and Secular States Scott W.

Hibbard,2010-10-15 2011 Winner of the Charles H Levine Memorial Book Prize of the International Political Science Association This comparative analysis probes why conservative renderings of religious tradition in the United States India and Egypt remain so influential in the politics of these three ostensibly secular societies The United States Egypt and India were quintessential models of secular modernity in the 1950s and 1960s By the 1980s and 1990s conservative Islamists challenged the Egyptian government India witnessed a surge in Hindu nationalism and the Christian right in the United States rose to dominate the Republican Party and large swaths of the public discourse Using a nuanced theoretical framework that emphasizes the interaction of religion and politics Scott W Hibbard argues that three interrelated issues led to this state of affairs First as an essential part of the construction of collective identities religion serves as a basis for social solidarity and political mobilization Second in providing a moral framework religion s traditional elements make it relevant to modern political life Third and most significant in manipulating religion for political gain political elites undermined the secular consensus of the modern state that had been in place since the end of World War II Together these factors sparked a new era of right wing religious populism in the three nations Although much has been written about the resurgence of religious politics scholars have paid less attention to the role of state actors in promoting new visions of religion and society Religious Politics and Secular States fills this gap by situating this trend within long standing debates over the proper role of religion in public life Renew Your Faith Susan W. Blum,1992 Future Survey Annual 1988-1989 Michael Marien,Lane Jennings,1990-01-01 BMW Z cars have carved a huge reputation for themselves in a very short time From the revolutionary and innovative Z1 of the late 1980s to the beautiful and exclusive Z8 of more recent times via the popular Z3 and its controversial replacement the Z4 the family has made BMW s name in the increasingly competitive sports car market
