Journal ,1999     *Remaking America* Joe Soss,Jacob S. Hacker,Suzanne Mettler,2007-11-08 Over the past three decades the contours of American social economic and political life have changed dramatically The post war patterns of broadly distributed economic growth have given way to stark inequalities of income and wealth the GOP and its allies have gained power and shifted U S politics rightward and the role of government in the lives of Americans has changed fundamentally Remaking America explores how these trends are related investigating the complex interactions of economics politics and public policy Remaking America explains how the broad restructuring of government policy has both reflected and propelled major shifts in the character of inequality and democracy in the United States The contributors explore how recent political and policy changes affect not just the social standing of Americans but also the character of democratic citizenship in the United States today Lawrence Jacobs shows how partisan politics public opinion and interest groups have shaped the evolution of Medicare but also how Medicare itself restructured health politics in America Kimberly Morgan explains how highly visible tax policies created an opportunity for conservatives to lead a grassroots tax revolt that ultimately eroded of the revenues needed for social welfare programs Deborah Stone explores how new policies have redefined participation in the labor force as opposed to fulfilling family or civic obligations as the central criterion of citizenship Frances Fox Piven explains how low income women remain creative and vital political actors in an era in which welfare programs increasingly subject them to stringent behavioral requirements and monitoring Joshua Guetzkow and Bruce Western document the rise of mass incarceration in America and illuminate its unhealthy effects on state social policy efforts and the civic status of African American men For many disadvantaged Americans who used to look to government as a source of opportunity and security the state has become increasingly paternalistic and punitive Far from standing alone their experience reflects a broader set of political victories and policy revolutions that have fundamentally altered American democracy and society Empirically grounded and theoretically informed Remaking America connects the dots to provide insight into the remarkable social and political changes of the last three decades

Evangelism Among

African American Presbyterians Marsha Snelligan Haney, 2007-05-23 As Presbyterians Lutherans Methodists Disciples of Christ and other predominantly European centered Christian denominations of North America seek to respond as a faith community to the increasingly dynamic ethnic and cultural diversity within our society this book offers a sobering yet valuable perspective By understanding the ministry of Christian evangelism as a construct that speaks of the power of divine transformation personal and communal and the embrace of a way of life this work argues for a multi variant approach that values the philosophical aspects of cultural differences which are effective and faithful models of Christian evangelism An analysis of key missiological concepts such as mission histories ethno theologies worldview culture ethnic cohesion and contextualization is appropriated to illuminate the theological voices and evangelical practices of a specific people or ethnicity shaped by a journey of spiritual faith While the numerical significance of self identified African American Presbyterians may appear small their synergistic encounter of human identity and religious faith historical experience in the church and the impact of their evangelical presence provide an excellent case study for discerning the twenty first century challenges of evangelism This thorough study of history theology organizational structures methods and techniques will serve as a valuable tool in evaluating the impact of the faith journey of African American Presbyterians and its challenges for today and the future
