Erotica and the Enlightenment Peter Wagner, 1991

The essays in this collection focus on the relations between erotic discourse and ideologies or mentalities in the Enlightenment. Although the contributors literary historians, historians and art historians differ in approach and methodology, their common ground is the analysis of various genres of Enlightenment discourse on sex. There is a particular stress on popular writings: sex guides, obscene satire, graphic erotica, which have been neglected by literary historians, as well as on the iconographic discourse in works of art. Approaching eighteenth century culture on such a broad basis, the essays try to retrieve parts of a lost world, i.e. the complicated relations between the literary and popular discourse on the one hand and on the other hand the ideologies and mentalities contained in or opposed to this discourse. The contributions thus shed light on important aspects of an age which determined the modern period.

**Sexuality and Memory in Early Modern England** John S.

Garrison, Kyle Pivetti, 2015-11-19. This volume brings together two vibrant areas of Renaissance studies: today, memory and sexuality. The contributors show that not only Shakespeare but also a broad range of his contemporaries were deeply interested in how memory and sexuality interact. Are erotic experiences heightened or deflated by the presence of memory? Can a sexual act be commemorative? Can an act of memory be eroticized? How do forms of romantic desire underwrite forms of memory? To answer such questions, these authors examine drama, poetry and prose from both major authors and lesser studied figures in the canon of Renaissance literature. Alongside a number of insightful readings, they show that sonnets enact a sexual exchange of memory that epics of nationhood cannot help but eroticize their subjects; that the act of sex in Renaissance tragedy too often depends upon violence of the past. Memory, these scholars propose, re-shapes the concerns of queer and sexuality studies, including the unhistorical, the experience of desire and the limits of the body. So too does the erotic revise the dominant trends of memory studies, from the rhetoric of the medieval memory arts to the formation of collective pasts.
