Mexico The Struggle For Democratic Development:

Mexico Daniel C. Levy, Kathleen Bruhn, 2006-01-26 This engaging book provides a broad and accessible analysis of Mexico's contemporary struggle for democratic development. Now completely revised, it brings up to date issues ranging from electoral reform and accountability to drug trafficking, migration and NAFTA. It also considers the rapidly changing role of Mexico's mass and elite groups and its national institutions including the media, the military and the Church. Mexico's Politics and Society in Transition Joseph S. Tulchin, Andrew D. Selee, 2003 An exploration of the interrelated trends of Mexico's transitional politics and society. Offering perspectives on the problems on the Mexican agenda, the authors discuss the politics of change, the challenges of social development and how to build a mutually beneficial US-Mexico relationship.

Globalization Howard J. Wiarda, 2007 The definitive volume on globalization from a comparative politics perspective.

Frustrated Nationalism Gregory S. Mahler, 2024-01-01 The nation state is seen by many today as the key unit of analysis for international organization and cooperation in the modern age, but not all groups that want to make up and control their own nation state are able to do so. Historical factors, domestic politics and international relations often prevent them from obtaining sovereign power. Groups that have tried to create a nation state and failed to do so can be referred to as being frustrated. *Frustrated Nationalism* offers case studies by an international collection of scholars who describe the efforts of many of those groups to achieve sovereign status or at least to obtain greater control over the policies that affect them, their strategies and their outcomes. Encyclopedia of Modern Mexico David W. Dent, 2002-06-11 From the Acteal Massacre to Ernesto Zedillo, Ponce de León, this exciting reference created for a high school audience explores the rich culture, the depth of achievement and the creative energy of Mexico and its people. **Contemporary Travel Writing of Latin America**

Claire Lindsay, 2010-02-15 This book takes a new approach to travel writing about Latin America by examining domestic journey narratives that have been produced by travellers from the continent itself and largely in Spanish. Historically, travel writing about Latin America has been written primarily from the perspective of the foreign, often European traveller. As such, and following the large influx of military, scientific and leisure travellers in the region since its colonisation, much of this foreign travel writing has depicted the continent in predominantly exoticist and/or imperialist terms. Lindsay explores how Latin American travellers have conceived and constructed narratives about travel at home and considers how such texts, many of them available in English translation or with subtitles, function to counter or corroborate long-standing myths about the continent. Through a series of regionally and thematically oriented case studies that engage with key issues, themes and debates in both Latin American and travel studies, Lindsay provides the first sustained interdisciplinary study of contemporary domestic travel narratives about the region and will also comprise an important intervention into methodological debates about travel and travel writing. *The Political Economy of Subnational Industrial Promotion in India and Mexico* Eric M. Jepsen, 2006 New York University Journal of International Law & Politics New York University.

Burnell, Vicky Randall, 2005 The past 10 15 years have seen a transformative change both in the politics of what has conventionally been referred to as the Third World comprising much of Asia Africa Latin and Central America the Caribbean and the Middle East and in the way we think about it Politics in the Developing World identifies and analyses these processes of change that are transforming the politics of the Third World bringing them together in an edited textbook It deals with central political themes and issues in the developing world such as globalization both economic and cultural and resistance to this inequality identity religion the military democracy the environment and policy development This book brings together leading international experts in the field to provide up to date and systematic coverage of the subject Presented in a user friendly format and designed especially for students the book contains useful pedagogical features such as a glossary of key terms chapter summaries questions for discussion chronologies web links suggestions for further reading and boxes highlighting particular issues events and ideas ONLINE RESOURCE CENTRE Provides further case studies and review questions *Annals of the American Academy of Political and Social Science* American Academy of Political and Social Science, 2007 **On Comparative Politics** Charles Hauss, 2005-07 **The Future of Revolutions** John Foran, 2003 The 20th Century was pre eminently an age of revolutions in Russia China Cuba and elsewhere that fundamentally transformed the nature of politics and social arrangements As we enter a new century has it got harder for revolutions to occur in the new unipolar globalized world Here John Foran asks is the era of revolution over if so why and if not what might the revolutions of the future *Newsrooms in Conflict* Sallie Hughes, 2006 Hughes explores the factors that brought about this transformation including not only the democratic upheaval within Mexico and the role of the market but also the diffusion of civic ideas the transformation of professional identities and most significantly the profound changes made within the newsrooms themselves Jacket *Post-Stabilization Politics in Latin America* Carol Wise, Riordan Roett, 2003-07-28 Over the last twenty years Latin America has seen a definitive movement toward civilian rule Significant trade fiscal and monetary reforms have accompanied this shift exposing previously state led

economies to the forces of the market Despite persistent economic and political hardships the combination of civilian regimes and market based strategies has proved to be remarkably resilient and still dominates the region This book focuses on the effects of market reforms on domestic politics in Latin America While considering civilian rule as a constant the book examines and compares domestic political responses in six countries that embraced similar packages of reforms in the 1980s Argentina Brazil Chile Mexico Peru and Venezuela The contributors focus on how ambitious measures such as liberalization privatization and deregulation yielded mixed results in these countries and in doing so they identify three main patterns of political economic adjustment In Argentina and Chile the implementation of market reforms has gone hand in hand with increasingly competitive politics In Brazil and Mexico market reforms helped to catalyze transitions from entrenched authoritarian rule Finally in Peru and Venezuela traditional political systems have collapsed and civilian rule has been repeatedly challenged The contributors include Carol Wise University of Southern California Karen L Remmer Duke University Carol Graham Brookings Institution Stefano Pettinato United Nations Development Programme Consuelo Cruz Tufts University Juan E Corradi New York University Delia M Boylan Chicago Public Radio Riordan Roett Johns Hopkins University Mart n Tanaka Institute for Peruvian Studies Lima and Kenneth M Roberts University of New Mexico
