Meyerhold At Work:

Meyerhold at Work Paul Schmidt, 2014-12-15 Not a mirror but a magnifying glass such in the poet Mayakovsky's words was the theater of Vsevolod Meyerhold. The first to insist on the primacy of the director's role indeed the first to conceive of it as a role this passionately dedicated Russian director tore down the fourth wall and forced the actors and audience together into one inescapable community of experience. Yet Meyerhold recorded few of his theories in writing and the intensity and brilliance of his work must be recaptured through the actors and artists who helped create the performances. Focusing on Meyerhold's postrevolutionary career Paul Schmidt has assembled in this book journals, letters, reminiscences and of special interest actual rehearsal notes that build a fascinating intimate picture of Meyerhold as a theorist and as a man. Included are Meyerhold's frantic notes to his teacher friend and belle noire Stanislavsky, detailed descriptions of how he trained his actors in biomechanics and memories by such students as Eisenstein and such friends as Pasternak and Ehrenburg. One chapter deals with Meyerhold's never realized conception of Boris Godunov while another describes his direction of *Camille* which starred Zinaida Raikh his wife and which played its 725th and last performance on the day Stalin's government liquidated Meyerhold's theater. Paul Schmidt's introduction and headnotes enhance our understanding of Meyerhold as a pioneer of modern theater.

Braun, 1998-04-02 Edward Braun's acclaimed work on Meyerhold available for the first time in paperback. Vsevolod Meyerhold began his career in theatre as an actor with the Moscow Art Theatre and after a spell in the remote provinces he returned to Moscow at Stanislavski's invitation and founded a new experimental studio for the Art Theatre. This book takes us through Meyerhold's extraordinary life of experiment and discovery describing his rehearsal techniques and exercises and provides an acute assessment of his continuing influence on contemporary theatre. [Aesthetic-Political Movement of Theatre and Performance](#) Min Tian, 2022-10-25 This book interrogates anew the phenomenon of tradition in a dialogical debate with a host of Western thinkers and critical minds. In contrast to the predominantly Western approaches which look at traditions Western and non Western from a predominantly Western modernist perspective this book interrogates from an intercultural perspective the transnational and transcultural consecration, translation, reinvention and displacement of traditions theatrical and cultural in the aesthetic political movement of twentieth century theatre and performance as exemplified in the case studies of this book. It looks at the question of traditions and modernities at the centre of this aesthetic political space as modernities interculturally evoke and are haunted by traditions and as traditions are interculturally refracted, reconstituted, refunctioned and reinvented. It also looks at the applicability of its intercultural perspective on tradition to the historical avant garde in general, postmodern, postcolonial and postdramatic theatre and performance and to the twentieth century classical intercultural theatre and the twenty first century new interculturalisms in

theatre and performance To conclude it looks at the future of tradition in the ecology of our globalized theatrum mundi and considers two important interrelated concepts future tradition and intercultural tradition This book will be of great interest to students and scholars in performance studies **The Theatre of Meyerhold and Brecht** Katherine Eaton,1985-12-17

This book focuses on the relationship of Bertolt Brecht to the theater of Russian director Vsevolod E Meyerhold Eaton s analysis places Brecht s dramatic theory and practice in proper historical perspective thereby increasing our understanding of the role of the Russian avant garde in shaping modern theater She clearly demonstrates the extent to which Meyerhold s influence on Brecht has been underestimated and she argues that the preservation of Meyerholdian theater should be numbered among Brecht s significant contributions to modern drama Russian Theatre in Practice Amy

Skinner,2019-04-18 Amidst the turmoil of political revolution the stage directors of twentieth century Russia rewrote the rules of theatre making From realism to the avant garde politics to postmodernism and revolution to repression these practitioners shaped perceptions of theatre direction across the world This edited volume introduces students and practitioners alike to the innovations of Russia s directors from Konstantin Stanislavsky and Vsevolod Meyerhold to Anatoly Efros Oleg Efremov and Genrietta Ianovskaia Strongly practical in its approach Russian Theatre in Practice The Director s Guide equips readers with an understanding of the varying approaches of each director as well as the opportunity to participate and explore their ideas in practice The full range of the director s role is covered including work on text rehearsal technique space and proxemics audience theory and characterization Each chapter focuses on one director exploring their historical context and combining an examination of their directing theory and technique with practical exercises for use in classroom or rehearsal settings Through their ground breaking ideas and techniques Russia s directors still demand our attention and in this volume they come to life as a powerful resource for today s theatre makers **The Theatre of**
