Smith,2014-03-14** Human displacement has always been a consequence of war written into the myths and histories of centuries of warfare However the global conflicts of the twentieth century brought displacement to civilizations on an unprecedented scale as the two World Wars shifted participants around the globe Although driven by political disputes between European powers the consequences of Empire ensured that Europe could not contain them Soldiers traversed continents and civilians often followed them or found themselves living in territories ruled by unexpected invaders Both wars saw fighting in Europe Africa the Middle East and the Far East and few nations remained neutral Both wars saw the mass

upheaval of civilian populations as a consequence of the fighting Displacements were geographical cultural and psychological they were based on nationality sex gender or age They produced an astonishing range of human experience recorded by the participants in different ways This book brings together a collection of inter disciplinary works by scholars who are currently producing some of the most innovative and influential work on the subject of displacement in war in order to share their knowledge and interpretations of historical and literary sources The collection unites historians and literary scholars in addressing the issues of war and displacement from multiple angles Contributors draw on a wealth of primary source materials and resources including archives from across the world military records medical records films memoirs diaries and letters both published and private and fictional interpretations of experience **Studies in Intelligence** ,2008

**Counterterrorism Between the Wars** Mary S. Barton,2020-10-22 Mary S Barton explores counterterrorism in the years between World War I and World War II starting with the attempted assassination of French Prime Minister George Clemenceau in 1919 and taking the story up to and beyond the double assassination of King Alexander I of Yugoslavia and French Foreign Minister Jean Louis Barthou in 1934 In telling the story of counterterrorism over this period Barton gives particular emphasis to Britain s attempts to quell revolutionary nationalist movements in India and throughout its empire and to the Great Powers combined efforts to counter the activities of the Communist International Further to this Barton discusses the establishment of the tools and infrastructure of modern intelligence including the cooperation between the United Kingdom and United States which would evolve into the Five Eyes intelligence alliance She gives weight to forgotten terrorism and arms traffic conventions and explores the facilitating role which the Paris Peace Conference and the League of Nations played in this context The stories told in *Counterterrorism Between the Wars* play out across the world from the remains of the Austro Hungarian German and Russian empires to the Northwest Frontier and the Bengal Province of British India A century after the Paris Peace Conference of 1919 *Counterterrorism Between the Wars* is the first comprehensive study to fit together the mass production of weapons during the Great War with the diplomacy of the interwar era and the rise of state sponsored terrorism during the 1920s and 1930s **British Military History** Gerald Jordan,1988 *J. Edgar Hoover and the Anti-interventionists* Douglas M. Charles,2007 In this manuscript Douglas M Charles reveals how FBI Director J Edgar Hoover catered to President Franklin D Roosevelt s political interests Between 1939 and 1945 the Federal Bureau of Investigation monitored the political activities of President Roosevelt s anti interventionist foreign policy critics Hoover whose position as FBI director was tenuous within the left of center Roosevelt administration catered to the president s political and policy interests in order to preserve his position and to expand FBI authority In his pragmatic effort to service administration political goals Hoover employed illegal wiretaps and informers collected derogatory information conducted investigations that had the potential to discredit the anti interventionists forwarded political intelligence to administration officials and coordinated some activity with British intelligence This all occurred within a crisis atmosphere created with the

onset of the Second World War and it was this political dynamic that permitted Hoover to successfully cultivate his relationship with President Roosevelt. In the process the administration's otherwise legitimate foreign policy opposition regarded by some as subversive had their civil liberties violated through intensive FBI scrutiny of their political dissent. Moreover the FBI's surveillance marks the origins of the FBI's role in the later national security state. Among the targets examined in this book are Charles Lindbergh the America First Committee notable anti interventionist senators and congressmen the anti interventionist press and other prominent individuals who advocated American isolation from foreign war.

**BOOK JACKET**     Her Majesty's Secret Service Christopher M. Andrew, 1986     **Journal of Information Science**, 2000 Principles practice     The British Conservative Party in the Age of Universal Suffrage Neal Robert McCrillis, 1998

The British Conservative Party in the Age of Universal Suffrage is a study of how Britain's Conservative Party responded to universal suffrage which passed in two installments in 1918 and 1928. In particular Neal R. McCrillis focuses on the development of the popular or mass party which in the 1920s began to appeal to new voters. To increase its support the Conservatives created organizations that enrolled more than one million women who had only recently gained the right to vote as well as young people and laborers. They also developed effective educational and propaganda methods that gave the party the edge in retaining supporters and winning elections.

*The SIGINT Secrets* Nigel West, 1988     *A Life of H.L.A. Hart* Nicola Lacey, 2006

Shortlisted for the 2005 British Academy Book prize Nicola Lacey's entrancing biography recounts the life of H. L. A. Hart the pre eminent legal philosopher of the twentieth century. Following Hart's life from modest origins as the son of Jewish tailor parents in Yorkshire to worldwide fame as the most influential English speaking legal theorist of the post War era the book traces his successive metamorphoses from Yorkshire schoolboy to Oxford scholar from government intelligence officer to Professor of Jurisprudence from awkward batchelor to family figurehead. In the tradition of Ray Monk's biography of Wittgenstein Nicola Lacey paints an absorbing picture of intellectual and psychological development of a mind struggling to cope with intellectual self doubt uncertain sexuality a difficult marriage and an anti semitic society. In depicting the evolution of Hart's life and mind Lacey provides a vivid recreation of both the intellectual and social climate of Oxford in the post War era.
