## **Michael Wesely:**

**Michael Wesely** Michael Wesely, Sarah Hermanson Meister, 2004 Since the early 1990s German photographer Michael Wesely has been inventing and refining techniques for using extremely long camera exposures to take uniquely compelling photographs. Through the use of filters and a very small aperture yet one that is standard in a professional camera lens he is able to diminish the amount of light hitting the negative to the point where he can extend the exposure many thousands of times longer than we would ordinarily expect. Some of Wesely's pictures of the rebuilding of Berlin's Potsdamer Platz for example in a series completed in 1999 were continuously exposed over a period of 26 months. The results of Wesely's explorations are as surprising as they are beautiful. In 2001 as The Museum of Modern Art began to prepare for its ambitious construction and renovation project a turning point in its history it recognized in Wesely's work an unequalled opportunity to artistically document that project. In August of that year then Wesely set specially designed cameras in long term installations in and around the museum choosing his locations for the construction views they provided. Nearly three years later the images are complete and their pentimento like strata of transparencies and overlays render the construction project's evolution in time as a dense and delicate network of forms and colors in space. Open Shutter accompanies an exhibition organized by Sarah Hermanson Meister Associate Curator of the museum's Department of Photography. Included in the book are several images of the construction of the new Museum of Modern Art Michael Wesely, 1994 Michael Wesely,

Michael Wesely Hubertus von Amelunxen, Michael Wesely, 2013 This book presents more than two hundred portraits of different people from Wesely's personal and professional acquaintance made between 1988 and 2013. Most of them were taken with an exposure time of five minutes in a few cases up to twenty minutes. The resulting pictures say more about a human being than a shot captured in a fraction of a second for which the photographer determines the moment the picture registers by pressing the shutter release **Michael Wesely, Photographie 1978 - 1995**, 1995 **Time Works** Michael Wesely, Jürgen Harten, 2010 It is common belief that a good photographer has to take sharp pictures. Michael Wesely however demonstrates just the opposite. Among the many variables which the photographic process allows to manipulate he is obsessed with only one the exposure time of the shutter practiced to the extreme. Some photographers work with exposure times of several seconds but days weeks months even years. They are Michael Wesely's domain and he tries them with all photographic subjects portraiture landscapes still lives plants and buildings. Thus it seems only natural that sunrises and sunsets becoming and fading play a dominant role in his work. Life itself leaves traces and wipes them out. This is Michael Wesely's major theme documented for the first time in this book by a representative selection of pictures **Illusions** KAI 10 | ARTHENA FOUNDATION, Düsseldorf, 2025-03-19 Zwischenwelten von Realität und Fiktion Illusion in der zeitgenössischen Kunst Transformation Simulation optische Illusionen wie beeinflusst Kunst unsere Wahrnehmung Die Publikation **Illusions** Contemporary Art Between Fiction and Reality dokumentiert drei wegweisende Ausstellungen der KAI 10 Arthena

Foundation und beleuchtet das Spannungsfeld zwischen Realität und Fiktion Von illusionistischer Malerei die das Auge täuscht Trompe l'oeil über digitale Simulationen bis hin zum Einfluss künstlicher Intelligenz auf die Bildproduktion hinterfragt das Buch die Mechanismen der Illusion in der zeitgenössischen Kunst Essays renommierter Autor\*innen setzen das Thema in einen breiteren gesellschaftlichen Kontext und eröffnen neue Perspektiven auf das Spiel mit Wahrnehmung und Wirklichkeit. Diese zweisprachige Ausgabe Deutsch/Englisch ist ein unverzichtbares Werk für Kunstinteressierte die sich mit der Wechselwirkung von Kunst/Technologie und Wahrnehmung auseinandersetzen möchten. *The Routledge Companion to Urban Imaginaries* Christoph Lindner, Miriam Meissner, 2018-09-28. The Routledge Companion to Urban Imaginaries delves into examples of urban imaginaries across multiple media and geographies from new visions of smart, eco and resilient cities to urban dystopias in popular culture from architectural renderings of starchitecture and luxury living to performative activism for new spatial justice and from speculative experiments in urban planning, fiction and photography to augmented urban realities in crowd mapping and mobile apps. The volume brings various global perspectives together and into close dialogue to offer a broad interdisciplinary and critical overview of the current state of research on urban imaginaries. Questioning the politics of urban imagination, the companion gives particular attention to the role that urban imaginaries play in shaping the future of urban societies, communities and built environments. Throughout the companion, issues of power, resistance and uneven geographical development remain central. Adopting a transnational perspective, the volume challenges research on urban imaginaries from the perspective of globalization and postcolonial studies, inviting critical reconsiderations of urbanism in its diverse current forms and definitions. In the process, the companion explores issues of Western centrism in urban research and design and accommodates current attempts to radically rethink urban form and experience. This is an essential resource for scholars and graduate researchers in the fields of urban planning and architecture, art, media and cultural studies, film, visual and literary studies, sociology and political science, geography and anthropology.

*Camera Constructs* Mr Andrew Higgott, Mr Timothy Wray, 2014-09-28. Camera Constructs reflects critically on the varied interactions of the different practices by which photographers, artists, architects, theorists and historians engage with the relationship of the camera to architecture, the city and the evolution of Modernism. Including twenty-three essays by a wide range of historians and theorists, this book provides a rich and highly original analysis of the relationship of photography to built form from the early modern period to the present day.

temporal anxieties precipitated by contemporary experiences of atomization displacement and fragmentation that bring about a loss of history and of time itself and that is peculiar to our current moment The digital age places premiums on just in time deliveries continual innovation instantaneous connectivity and around the clock availability While some celebrate this 24/7 culture others see it as profoundly destructive to the natural rhythm of day and night and to human happiness Have we entered an era of a perpetual present that depletes the future and erodes our grasp of the past Beginning its examination around 1900 when rapid modernization was accompanied by comparably intense reflection on changing temporal experience Precarious Times provides historical depth and perspective to current debates on the digital now Expanding the modern discourse on time and speed Fuchs deploys such concepts as attention slowness and lateness to emphasize the uneven quality of time around the world

**Michael Wesely: the Camera Was Present 2010-2020** Michael Wesely, 2022-06 For over three decades now Michael Wesely has created revelatory photographs using large format lenses on self made long exposure cameras The resulting exposure times are extraordinary not merely minutes and hours but days months and even years Wesely's camera catches the enormity of everything that passes before it crystallizing reality into unexpected densely layered and sometimes ghostly pictures Familiar objects often become only partially recognizable opening up new perceptions of time and space Wesely's highly original work contrasts to the more traditional approach of photographers carefully staging their compositions and directing the subject His images seem caught in the processes of both becoming and unraveling what remains is fragmentary comparable to the ambiguity of Michelangelo Antonioni's thriller *Blow Up* Wesely sees his photos as archival excerpts from the present inviting us to consider them as visual archaeology and to imagine our own stories behind their creation *The Camera Was Present* celebrates his 20 year collaboration with Galerie Fahnemann and traces the evolution of his photography from 2010 to 2020
