*Ancient Egypt in the Popular Imagination* David Huckvale,2014-01-10 Ancient Egypt has long been a source of fascination in Western popular culture Movies such as *The Mummy* 1932 1959 Biblical epics like *The Ten Commandments* 1923 1956 and pharaonic films like *Cleopatra* 1934 1963 and *The Egyptian* 1954 have all recreated the glamour and allure of Egyptian art and civilization for Western audiences This work traces how these and other films were inspired by writers like Bram Stoker and Sir Arthur Conan Doyle and by the art of Victorian painters Similarly it shows how the soundtracks to such films belong to a Romantic musical tradition stretching back beyond Verdi and Mozart Exploring these artistic endeavors addresses the question of whether the fantasy of ancient Egypt represents racist misunderstandings of a far more significant reality or a way for Western culture to understand itself      **Osiris and the Egyptian Resurrection** Ernest A. *An Examination of the Isis Cult with Preliminary Exploration Into New Testament Studies* Elizabeth A. McCabe,2008 This work serves as an investigation of the Isis cult by tracing its development from Egypt into Greco Roman society The origin of the Isis cult is described by using the accounts of Plutarch Apuleius and Diodorus before examining the effects of Isis on Egyptian culture The Isis cult soon overflows into the Greco Roman world While this mysterious religion initially encounters opposition especially since it clashes with Roman patriarchal society it overcomes these limitations The relevance of Isis to New Testament studies is demonstrated by comparing similar Pauline practices to Isiac beliefs and practices The concepts of freedom salvation baptism and resurrection in Pauline Christianity overlap with Isiac beliefs The possibility of the Isis cult as an historical context is explored in the book of 1 Timothy which serves as an example of the intersection between the biblical text and the Egyptian cult of Isis      **The American Review of Reviews** ,1912      *Cheikh Anta Diop's Transdisciplinary*

*Legacy* Victor Oguejiofor Okafor,2026-01-22 This book highlights the transdisciplinary legacy of Cheikh Anta Diop s epistemology demonstrating its continuing impact on contemporary Africology which is also known as Black Studies Diop s works in the second half of the 20th century were foundational to the discipline of Africology Exposing a stain of cultural and racial bias in Eurocentric Egyptology Diop argued that ancient Egyptian civilization in fact had deep cultural and linguistic

connections with African societies south of the Sahara This book argues that transdisciplinarity was at the heart of Diop's arguments as his work drew from history anthropology linguistics sociology economics linguistics osteology and physics This book argues that even now transdisciplinary approaches remain essential to the discipline of Africology sometimes referred to as Black Studies Africana Studies Pan African Studies African Global Studies or African American Studies In this book the contributors consider how Diopian transdisciplinary epistemic approaches continue to combat racial bias and restore the global historical and cultural significance of Africa Highlighting the significance of Africa's usable past as outlined by Diop this book is an important read for researchers across African Studies Africology Black Studies History World Civilizations Intercultural Studies Africa focused Think Tanks and policy makers across the African world     *Osiris and the Egyptian Resurrection* Ernest Alfred Thompson Wallis Budge,1911     *Osiris and the Egyptian Resurrection* Sir Ernest Alfred Wallis Budge,1911     **Monthly Bulletin.
