Otherness Of God:

The Otherness of God Orrin F. Summerell, 1998 This volume offers essays on the nature of God and the fundamental tasks of philosophy and theology written by internationally recognized thinkers in the distinct fields of philosophy religious studies and theology The Otherness of God traces the lineage of its theme from Plato and Aristotle through Neoplatonic medieval and Renaissance expression and on through Reformation thought and German idealism to dialectical theology and deconstruction This provocative collection drawn primarily from an interdisciplinary conference at the University of Virginia should attract those interested in the philosophy of religion the history of philosophy and theology and the theological interpretation of secular culture

The Indescribable God Barry D. Smith, 2012-10-05 The God of classical Christian faith is radically transcendent utterly beyond understanding and words So if God is to be known it must be in the luminous darkness of unknowing Drawing on a wide range of primary sources biblical patristic and medieval Barry D Smith identifies and explores seven ways of expressing the otherness of God in classical Christian thinking By allowing historical theologians to speak for themselves he shows how an aversion to ontotheology long precedes postmodernism The book first lays out the Old Testament and New Testament foundations for subsequent Christian reflections on divine transcendence These were the teachings that the early church assumed and with the assistance of Greek philosophy further refined with their own set of apophatic conceptual tools The main focus of the book is a sevenfold exposition of that theological refinement Smith concludes by looking towards possible future theological developments within this apophatic tradition Drawing on the theological methodology of historic Christianity he indicates how a synthesis of the biblical teaching on the otherness of God with philosophical traditions other than those inherited from Greek philosophy is also possible

Exclusion and Embrace Miroslav Volf, 1996 Life at the end of the twentieth century presents us with a disturbing reality Otherness the simple fact of being different in some way has come to be defined as in and of itself evil Miroslav Volf contends that if the healing word of the gospel is to be heard today Christian theology must find ways of speaking that address the hatred of the other Reaching back to the New Testament metaphor of salvation as reconciliation Volf proposes the idea of embrace as a theological response to the problem of exclusion Increasingly we see that exclusion has become the primary sin skewing our perceptions of reality and causing us to react out of fear and anger to all those who are not within our ever narrowing circle In light of this Christians must learn that salvation comes not only as we are reconciled to God and not only as we learn to live with one another but as we take the dangerous and costly step of opening ourselves to the other of enfolding him or her in the same embrace with which we have been enfolded by God Is there any hope of embracing our enemies Of opening the door to reconciliation Miroslav Volf a Yale University theologian has won the 2002 Louisville Grawemeyer Award in Religion for his book *Exclusion Embrace A Theological Exploration of Identity Otherness and Reconciliation* Abingdon 1996 Volf argues that exclusion of people who are alien or different is among the most intractable problems in the world today He writes It may not

be too much to claim that the future of our world will depend on how we deal with identity and difference. The issue is urgent. The ghettos and battlefields throughout the world in the living rooms in inner cities or on the mountain ranges testify indisputably to its importance. A Croatian by birth, Volf takes as a starting point for his analysis the recent civil war and ethnic cleansing in the former Yugoslavia, but he readily finds other examples of cultural, ethnic, and racial conflict to illustrate his points. And since September 11, one can scarcely help but plug the new world players into his incisive descriptions of the dynamics of interethnic and international strife. Exclusion happens, Volf argues, wherever impenetrable barriers are set up that prevent a creative encounter with the other. It is easy to assume that exclusion is the problem or practice of barbarians who live over there, but Volf persuades us that exclusion is all too often our practice here as well. Modern western societies, including American society, typically recite their histories as narratives of inclusion, and Volf celebrates the truth in these narratives. But he points out that these narratives conveniently omit certain groups who disturb the integrity of their happy ending plots. Therefore, such narratives of inclusion invite long and gruesome counter narratives of exclusion: the brutal histories of slavery and of the decimation of Native American populations come readily to mind, but more current examples could also be found. Most proposed solutions to the problem of exclusion have focused on social arrangements: what kind of society ought we to create in order to accommodate individual or communal difference? Volf focuses rather on what kind of selves we need to be in order to live in harmony with others. In addressing the topic, Volf stresses the social implications of divine self-giving. The Christian scriptures attest that God does not abandon the godless to their evil, but gives of Godself to bring them into communion. We are called to do likewise, whoever our enemies and whoever we may be. The divine mandate to embrace, as God has embraced, is summarized in Paul's injunction to the Romans: Welcome one another, therefore, just as Christ has welcomed you. Romans 15:7. Susan R. Garrett, Coordinator of the Religion Award, said that the Grawemeyer selection committee praised Volf's book on many counts. These included its profound interpretation of certain pivotal passages of Scripture and its brilliant engagement with contemporary theology, philosophy, critical theory, and feminist theory. Volf's focus is not on social strategies or programs, but rather on showing us new ways to understand ourselves and our relation to our enemies. He helps us to imagine new possibilities for living against violence, injustice, and deception. Garrett added that although addressed primarily to Christians, Volf's theological statement opens itself to religious pluralism by upholding the importance of different religious and cultural traditions for the formation of personal and group identity. The call to embrace the other is never a call to remake the other into one's own image. Volf, who had just delivered a lecture on the topic of Exclusion and Embrace at a prayer breakfast for the United Nations when the first hijacked plane hit the World Trade Center, will present a lecture and receive his award in Louisville during the first week of April 2002. The annual Religion Award, which includes a cash prize of 200,000, is given jointly by Louisville Presbyterian Theological Seminary and the University of Louisville to the authors or originators of creative works that contribute significantly to an understanding of

the relationship between human beings and the divine and ways in which this relationship may inspire or empower human beings to attain wholeness integrity or meaning either individually or in community The Grawemeyer awards given also by the University of Louisville in the fields of musical composition education psychology and world order honor the virtue of accessibility works chosen for the awards must be comprehensible to thinking persons who are not specialists in the various fields

Martin Luther and Buddhism Paul S Chung, 2008-09-25 Martin Luther and Buddhism Aesthetics of Suffering carefully traces the historical and theological context of Luther's breakthrough in terms of articulating justification and justice in connection to the Word of God and divine suffering Chung critically and constructively engages in dialogue with Luther and with later interpreters of Luther such as Barth and Moltmann placing the Reformer in dialogue not only with Asian spirituality and religions but also with an emerging global theology of religions

Does God Suffer? Thomas Weinandy O.F.M., 2000-02-15 The immense suffering caused by sin and evil within the modern world especially in the light of the Holocaust has had a profound impact on the contemporary understanding of God and his relationship to human suffering Since the early part of this century there has been a growing consensus among theologians that God himself within his divine nature suffers in solidarity and love with those who suffer This present theological position contradicts the traditional Christian understanding of almost two thousand years that God is impassible and so does not experience negative emotional states such as suffering Thomas Weinandy O F M resolutely challenges this contemporary view of God and suffering Calling upon scripture and the philosophical and theological

tradition of the Fathers and Aquinas Weinandy creatively and systematically addresses all of the contemporary concerns He strongly advocates the incarnational truth that the Son of God actually does experience as man all that pertains to living an authentic human life and so does indeed suffer This book is both a challenge to much received contemporary philosophical and theological wisdom and a scholarly original and refreshing account of the Christian Gospel It is one of the most comprehensive Christian presentations of God and human suffering available today Přehled hlavních úkolů pro
