**Sounding Otherness in Early Modern Drama and Travel** Jennifer Linhart Wood,2019-04-23 Winner of the Medieval and Renaissance Drama Society's 2021 Bevington Award for Best New Book Sounds are a vital dimension of transcultural encounters in the early modern period. Using the concept of the soundwave as a vibratory uncanny and transformative force Jennifer Linhart Wood examines how sounds of foreign otherness are experienced and interpreted in cross cultural interactions around the globe. Many of these same sounds are staged in the sonic laboratory of the English theater: rattles were shaken at Whitehall Palace and in Brazil bells jingled in an English masque and in the New World the Dallam organ resounded at Topkap Palace in Istanbul and at King's College Cambridge and the drum thundered across India and throughout London theaters. This book offers a new way to conceptualize intercultural contact by arguing that sounds of otherness enmesh bodies and objects in assemblages formed by sonic events calibrating foreign otherness with the familiar self on the same frequency of vibration

*Traces of the Trinity* Andrew Robinson,2014-08-28 The essential argument of this new work by Andrew Robinson is that we live move and have our being within a sea of signs but that we are largely unaware of this for most of the time. When the structure of these signs is analysed it turns out to rest on three recurring elemental grounds which the author calls Quality, Otherness and Mediation. The kaleidoscopic ramifying patterns of Quality, Otherness and Meditation which underpin representations and interpretations at every level and dimension of the processes of signification offer a model of the dynamic mutual indwelling of the Father, Son and Spirit within the eternal life of the Trinity. This semiotic model of the Trinity would be of rather limited interest in itself unless it can also illuminate other areas of Christian theology. Robinson suggests that the model leads to a helpful way of understanding how the entirely human person Jesus of Nazareth may be understood to have been the full and perfect embodiment representation of the quality of God's being. This in turn helps us to understand how the processes of representation and interpretation enable us to be drawn into the very life of God. This has practical implications for the church and for the individual lives of Christian believers. It also offers via a re articulation of the neglected concept of vestiges of the Trinity in creation a form of spirituality of the everyday.

**The Monstrosity of Christ** Slavoj Zizek,John Milbank,2011-02-25 A militant Marxist atheist and a Radical Orthodox Christian theologian square off on everything from the meaning of theology and Christ to the war machine of corporate mafia. What matters is not so much that Zizek is endorsing a demythologized, disenchanted Christianity without transcendence as that he is offering in the end despite what he sometimes claims a heterodox version of Christian belief. John

Milbank To put it even more bluntly my claim is that it is Milbank who is effectively guilty of heterodoxy ultimately of a regression to paganism in my atheism I am more Christian than Milbank Slavoj i ek In this corner philosopher Slavoj i ek a militant atheist who represents the critical materialist stance against religion s illusions in the other corner Radical Orthodox theologian John Milbank an influential and provocative thinker who argues that theology is the only foundation upon which knowledge politics and ethics can stand In The Monstrosity of Christ i ek and Milbank go head to head for three rounds employing an impressive arsenal of moves to advance their positions and press their respective advantages By the closing bell they have not only proven themselves worthy adversaries they have shown that faith and reason are not simply and intractably opposed i ek has long been interested in the emancipatory potential offered by Christian theology And Milbank seeing global capitalism as the new century s greatest ethical challenge has pushed his own ontology in more political and materialist directions Their debate in The Monstrosity of Christ concerns the future of religion secularity and political hope in light of a monsterful event God becoming human For the first time since i ek s turn toward theology we have a true debate between an atheist and a theologian about the very meaning of theology Christ the Church the Holy Ghost Universality and the foundations of logic The result goes far beyond the popularized atheist theist point counterpoint of recent books by Christopher Hitchens Richard Dawkins and others i ek begins and Milbank answers countering dialectics with paradox The debate centers on the nature of and relation between paradox and parallax between analogy and dialectics between transcendent glory and liberation Slavoj i ek is a philosopher and cultural critic He has published over thirty books including Looking Awry The Puppet and the Dwarf and The Parallax View these three published by the MIT Press John Milbank is an influential Christian theologian and the author of Theology and Social Theory Beyond Secular Reason and other books Creston Davis who conceived of this encounter studied under both i ek and Milbank

**Aspects of Alterity** Brian Treanor, 2006 Every other is truly other but no other is wholly other This is the claim that Aspects of Alterity defends Taking up the question of otherness that so fascinates contemporary continental philosophy this book asks what it means for something or someone to be other than the self After a thorough assessment and critique of otherness in Levinas s and Marcel s work including a discussion of the relationship of ethical alterity to theological assumption Aspects of Alterity traces the transmission and development of these two conceptions of otherness Ultimately Aspects of Alterity makes a case for a hermeneutic account of otherness Jacket
