Our Enemies in Blue Kristian Williams,2015-08-03 Let's begin with the basics violence is an inherent part of policing The police represent the most direct means by which the state imposes its will on the citizenry They are armed trained and authorized to use force Like the possibility of arrest the threat of violence is implicit in every police encounter Violence as well as the law is what they represent Using media reports alone the Cato Institute's last annual study listed nearly seven thousand victims of police misconduct in the United States But such stories of police brutality only scratch the surface of a national epidemic Every year tens of thousands are framed blackmailed beaten sexually assaulted or killed by cops Hundreds of millions of dollars are spent on civil judgments and settlements annually Individual lives families and communities are destroyed In this extensively revised and updated edition of his seminal study of policing in the United States Kristian Williams shows that police brutality isn't an anomaly but is built into the very meaning of law enforcement in the United States From antebellum slave patrols to today's unarmed youth being gunned down in the streets peace keepers have always used force to shape behavior repress dissent and defend the powerful Our Enemies in Blue is a well researched page turner that both makes historical sense of this legalized social pathology and maps out possible alternatives

*A World Without Police* Geo Maher,2021-08-24 If police are the problem what's the solution Tens of millions of people poured onto the streets for Black Lives Matter bringing with them a wholly new idea of public safety common security and the delivery of justice communicating that vision in the fiery vernacular of riot rebellion and protest A World Without Police transcribes these new ideas written in slogans and chants over occupied bridges and hastily assembled barricades into a compelling must-read manifesto for police abolition Compellingly argued and lyrically charged A World Without Police offers concrete strategies for confronting and breaking police power as a first step toward building community alternatives that make the police obsolete Surveying the post protest landscape in Minneapolis Philadelphia Chicago and Oakland as well as the people who have experimented with policing alternatives at a mass scale in Latin America Maher details the institutions we can count on to deliver security without the disorganizing interventions of cops neighborhood response networks community-based restorative justice practices democratically organized self defense projects and well resourced social services A World Without Police argues that abolition is not a distant dream or an unreachable horizon but an attainable reality In communities around the world we are beginning to glimpse a real lasting justice in which we keep us safe
