William Morris and the Idea of Community

Anna Vaninskaya, 2010-10-12 The great polymath William Morris and his contemporaries and followers from H Rider Haggard to H G Wells are the focus of this study. Anna Vaninskaya draws upon a wide array of primary sources from working class fiction and articles in fringe socialist newspapers to historical treatises, autobiographies and diaries in order to explore the many ways Victorians and Edwardians talked about community and modernity. Vaninskaya's narrative moves from the realm of romance bestsellers and sniggering reviews to debates in weighty historical tomes and then to the headquarters of revolutionary parties to street corners and shabby lecture halls. She demonstrates how in each domain the dream of community clashed with the reality of the modern state and market *The Idea of the Novel in Europe, 1600-1800* Ioan Williams, 1979-05-24

The Idea of Europe in Literature Susanne Fendler, Ruth Wittlinger, 1999-09-11 The relevance of culture has recently enjoyed increasing recognition for the study of European integration and a European identity. Appeals to a common European culture as well as appeals to different national cultures have been used respectively as a means to pursue political ends. Paying tribute to literature's role as an important constituent part of a culture this collection of essays explores literary representations of Europe and its nation states and should be of particular value to anyone who is interested in cultural, political or literary studies in the European context *The Idea of Tragedy in the Drama of the English Romantic Poets* John Michael Cawley, 1941

In a world where the PhD is undergoing significant radical change and where inside universities doctoral enrolments are continually climbing as the demand for more graduates with high level research skills increases this book asks the following questions: How do we understand how the PhD is currently imagined and conceptualised in the wider domain? Where will we find ideas about the PhD from its purpose to the nature of research work undertaken and the kinds of pedagogies engaged to the researchers who undertake it and are shaped by it? International in scope this is a text that explores the culturally inflected representation of the doctorate and its graduates in the imagination literature and media. The
