## **Marketing Renaissance:**

The Marketing Renaissance David E. Gumpert, 1985-05-13      Message to the Next Generation of Marketers Kasbulla Dash, 2025-06-15

Message to the Next Generation of Marketers by Kasbulla Dash's name is becoming synonymous with digital excellence but his story didn't start with fame awards or international stages. It began in Glasgow with raw ambition and a passion to learn. From Mentored to Master is the inspiring and practical journey of a young entrepreneur who was guided by SEO legend Craig Campbell and rose to become one of the UK's leading voices in digital marketing. In this book Kasbulla opens up about his early struggles, breakthrough moments, and the mindset it takes to succeed in a fast-moving digital world.

**Beyond Digital** Roger Parry, 2018-03-23

Since the 1990s waves of digital technology have transformed the business of marketing communication. There has been an irreversible shift from a product-centric to a consumer-centric approach. Digital channels have given consumers far more content choice, power, and information. They also provide vast amounts of data and insight. Marketing communication has moved from being a broadcast to a dialogue. But after the initial enthusiasm, there has been a much more critical appraisal of the digital communications revolution. As the technology has advanced, the traditional analytical tools like the Marketing Mix and the Marketing Funnel have been called outmoded. This book suggests that with refinement and updating, these ideas are as relevant and useful as ever. Before the internet, smartphones, and social media was the Classical era of marketing communication. Then, during two decades of digital transition, we have been dazzled and intrigued by the novelty and wonders of new technologies, at times losing sight of the fundamentals of branding and marketing. It is now accepted that digital media have some serious problems: accuracy of audience measurement, lack of media buying transparency, brand safety, proximity with undesirable content, and data privacy. This book reflects the reality that digital marketing as a stand-alone idea is now passé. Digital is ubiquitous. It is fully embedded in all aspects of communication. The growing criticism of the technology giants and the social, political, and commercial pressure on them to clean up their act is ushering in a Neoclassical era when issues such as taking responsibility like traditional publishers and providing third-party verification of audiences will get resolved. It is time to rediscover and rewrite the classic marketing communications frameworks, not to abandon them.

Research Handbook of Marketing in Emerging Economies Marin A. Marinov, 2017-04-28

Recently, emerging economies have contributed significantly to the world economic growth and output. This Research Handbook attempts to fill in the gap of sparse publications on marketing in emerging economies. It addresses diverse issues from a universal as well as regional and country-specific perspective, shedding light on general topics such as data collection, procedure, equivalence, and marketing accountability, and also exploring various contexts like Central Eastern Europe and India. Comparing the ways in which marketing is performed in emerging and advanced economies, the chapters explore various aspects including business-to-business marketing relationships, the role of multi-cultural markets in marketing, and retail marketing of multinational corporations, corporate social responsibility, and
