## **Maroni De Chypre Studies In Mediterranean Archaeology:**

*Prehistoric and Protohistoric Cyprus* A. Bernard Knapp, 2008-02-21 A new island archaeology and island history of Bronze Age and early Iron Age Cyprus set in its Mediterranean context In this extensively illustrated study A Bernard Knapp addresses an under studied but dynamic new field of archaeological enquiry the social identity of prehistoric and protohistoric Mediterranean islanders *Journal of Mediterranean Archaeology*, 1990 **Achaïos** Evangelia Papadopoulou, Vassilis Chrysikopoulos, Gioulika Christakopoulou, 2016-07-10 In Achaïos thirty five scholars from six different countries have contributed with thirty one papers as a small token of appreciation gratitude and affection to a true scholar who devoted his life studying and revealing the long journeys of the Mycenaeans and their culture *Ancient Art from Cyprus* Metropolitan Museum of Art (New York, N.Y.), Vassos Karageorghis, Joan R. Mertens, Marice E. Rose, 2000 The Cesnola Collection in The Metropolitan Museum of Art is the richest and most varied representation outside Cyprus of Cypriot antiquities These works were purchased by the newly established Museum in the mid 1870s from General Luigi Palma di Cesnola a Civil War cavalry officer who had amassed the objects while serving as the American consul on Cyprus This catalogue is published on the occasion of the opening of the Museum's four permanent galleries for ancient art from Cyprus It is also the first scholarly publication since 1914 devoted to the Cesnola Collection which totals approximately six thousand objects The volume features some five hundred pieces from the collection illustrated in new color photography Dating from about 2500 B C to about A D 300 these works rank among the finest examples of Cypriot art from the prehistoric Geometric Archaic Classical Hellenistic and Roman periods Among the objects are monumental sculpture weapons tools and domestic utensils vases lamps and ritual paraphernalia dedicatory figurines engraved sealstones and jewelry and luxury objects **BOOK JACKET** Title Summary field provided by Blackwell North America Inc All Rights Reserved *Beyond Babylon* Metropolitan Museum of Art (New York, N.Y.), 2008 This important volume describes the art created in the second millennium B C for royal palaces temples and tombs from Mesopotamia Syria and Anatolia to Cyprus Egypt and the Aegean Mortuary Ritual and Society in Bronze Age Cyprus Priscilla Keswani, 2004 A ground breaking investigation of burial practices and social transformations in the era when Cypriot agricultural communities moved from village to urban life and became major players in the eastern Mediterranean copper trade The author develops an innovative theoretical and methodological approach that enables her to define and elucidate the shifting spatial relationships between tombs and habitation areas the elaboration of rituals involving secondary treatment and collective burial and changing patterns of mortuary expenditure and symbolism throughout the Bronze Age Keswani proposes that during the Early Middle Bronze periods the growing elaboration of mortuary festivities and their crucial importance in negotiating status hierarchies contributed to the intensification of Cypriot copper production and the expansion of interregional exchange relations Subsequent changes in mortuary practice suggest that the importance of collective burial rites and traditional modes of ritual

display diminished over the course of the Late Bronze Age as urban institutions multiplied and the bases of social prestige were transformed Mycenaean Civilization Bryan Feuer, 2003-12-31 Classical Greeks considered the Mycenaean civilization to be the basis of their glorious and heroic heritage but its material existence was not confirmed until the excavations of Heinrich Schliemann in the late nineteenth century In the ensuing years as with the field of archaeology in general emphasis has shifted from revealing monuments and finding treasure to dealing with less glamorous more scientifically oriented investigations concerning aspects such as social and political organization economic functions and settlement patterns With its more than 2000 entries this reference work serves as both an introduction to and a summary of the study of ancient Mycenaean civilization Considerably expanded from the first edition there are 500 new entries representing materials published since 1991 The largest part of the book is made up of annotated bibliography entries arranged topically with introductory material for each section The book also includes a general introduction to Mycenaean civilization a glossary and author place and subject indexes Maroni de Chypre Jane Johnson, 1962 Maroni de Chypre Jane Johnson (archaeology.), 1980 *Report of the Department of Antiquities, Cyprus* Cyprus. Serwint, 2002 This is a collection of papers which focus on issues of gender and society in ancient Cyprus from the Neolithic to Roman periods *The Journal of Hellenic Studies*, 1981 Vols 1 8 1880 87 plates published separately and numbered I LXXXIII **Studies in Mycenaean Inscriptions and Dialect**, 1980 Early Enkomi Lindy Crewe, 2007 The beginning of the Late Bronze Age on Cyprus saw a range of dramatic changes occurring in the settlement patterns and material culture of the island accompanied by evidence for increased interaction with the surrounding region These include population movements from small inland to larger nucleated coastal settlements an increase in social stratification and copper production the first evidence for literacy and Cyprus becoming increasingly involved in the complex exchange networks of the eastern Mediterranean Central to any study of the island's prehistory is the coastal settlement of Enkomi often considered to be the first state like entity on the island and identified with the Alashiya of contemporary textual The author's main goal in this volume is to examine the archaeological evidence for the beginnings of the transformation of Cypriot society as it stands to seek to understand the individual aspects of the process and to separate this from the later LCIIC outcomes The author utilises the Enkomi pottery assemblage to examine the introduction of wheelmade pottery and thereby investigate the processes through which Cypriot society became highly complex including whether the evidence points to early centralized control or independent regional developments However in order to understand the pottery it was necessary to investigate all

types of archaeological evidence pertaining to the early history of the site and this volume also includes discussion of architecture tombs and other aspects of material culture Part 1 provides the theoretical background to investigations of social complexity and discusses the applications Part 2 addresses the evidence for both settlement and ceramics during the Cypriot Bronze Age Part 3 is devoted to the analysis of the Enkomi data Part 4 presents the author's conclusions *Ritual Architecture, Iconography and Practice in the Late Cypriot Bronze Age* Jennifer M.
