## **Marriage And Mental Handicap:**

**Marriage and Mental Handicap** Janet Mattinson,1975      *Handicapped Married Couples* Ann Craft,Michael Craft,2023-07-05 Despite handicaps of low mental ability deprived backgrounds or psychiatric and physical disability most married couples with disabilities manage to give and receive much personal satisfaction and pleasure in their marriages This is of special interest to professionals and social workers who in the course of their jobs are called upon to give support and service to people with mental disabilities Originally published in 1979 Ann and Michael Craft had spent four years researching a sample of 45 marriages with at least one spouse with a mental disability In three quarters of the partnerships both spouses have a mental disability This was the largest group of married subjects with a mental disability studied in this country at the time and the Crafts conclusions were of considerable importance for with the recent trend towards normalization marriage was becoming a viable possibility for more and more people with mental disabilities The purposes of the study therefore were to give an account of the authors research concerning married couples with mental disabilities to suggest some ways in which service to such couples might be improved and to provide material for teaching purposes This book is a re issue originally published in 1979 The language used is a reflection of its era and no offence is meant by the Publishers to any reader by this re publication      *The Modern Management of Mental Handicap* G.B. Simon,2012-12-06 The aim of this book is to provide parents staff and others involved with mentally handicapped children and adults with up to date basic information and advice in their management Methods of care treatment and management of a heterogeneous group of people such as the mentally handicapped must of necessity include many disciplines if they are to be given an adequate service This book is an attempt to bring the knowledge and experience of many people together The size of the book could have been increased to include more detail on other aspects of the subject but this might easily have diminished its value as a convenient reference to as wide a readership as possible both professional and non professional The contents deal essentially with the needs of the severely mentally handicapped and should have an application in most parts of the world Much of the information and advice on services and on treatment and management is based on the experience of specialists working in the United Kingdom this now being standard practice in most parts of the world      Equal Treatment for People with Mental Retardation Martha A. Field,Valerie A. Sanchez,2009-07-01 Engaging in sex becoming parents raising children these are among the most personal decisions we make and for people with mental retardation these decisions are consistently challenged regulated and outlawed This book is a comprehensive study of the American legal doctrines and social policies past and present that have governed procreation and parenting by persons with mental retardation It argues persuasively that people with retardation should have legal authority to make their own decisions Despite the progress of the normalization movement which has moved so many people with mental retardation into the mainstream since the 1960s negative myths about reproduction and child rearing among this population persist Martha Field and Valerie Sanchez trace

these prejudices to the eugenics movement of the late nineteenth and early twentieth centuries They show how misperceptions have led to inconsistent and discriminatory outcomes when third parties seek to make birth control or parenting decisions for people with mental retardation They also explore the effect of these decisions on those they purport to protect Detailed thorough and just their book is a sustained argument for reform of the legal practices and social policies it describes *Dictionary of Mental Handicap* Mary P. Lindsey, 2002-03-11 Over recent years the policy of isolating and institutionalizing mentally handicapped people has gradually been dismantled and a major shift to community care has taken place But integration within the general community and access to special services has greatly increased the number of people with a need to know about mental handicap Each profession or discipline has its own terminology nowadays one must be conversant with all of them In this comprehensive dictionary Mary Lindsey has brought together terms and concepts from a wide variety of fields Approximately 2 400 entries are included ranging in length from concise explanations to encyclopaedic essays but always expressed in clear simple language Where appropriate suggestions for further reading are made and possible sources of further information given An extensive system of cross references leads the interested reader further and makes valuable connections between entries The medical aspects of mental handicap its causes prognoses and treatments are of course covered in detail But although the cause of mental handicap may be medical subsequent interventions may be sociological psychological educational medical paramedical or psychiatric This is reflected in the choice of entries making the Dictionary an invaluable source of reference for all those involved with mentally handicapped people in any capacity whatsoever Mental Handicap and Sexuality Ann Craft, 1987 **Sterilization and Mental Handicap** National Institute on Mental Retardation, Ontario Association for the Mentally Retarded, 1980 Collection d'articles concernant la sexualité et plus précisément la stérilisation des personnes ayant une déficience intellectuelle **Mental Handicap** Brian Herbert Kirman, 1975 *Insanity and Mental Deficiency in Relation to Legal Responsibility* William George Henry Cook, 1921 *Strength Based Perspective in Working with Clients with Mental Illness* Kam-Shing Yip, 2008 This book offers to serve as a guide for professionals in understanding and applying a strength based perspective for Chinese clients with mental illness and to discuss the Chinese articulation of concepts and practice of these perspective within Chinese culture Ever since the emergence of a medical model in the explanation of mental illness the disease model or deficit problem orientation became the dominant paradigm in perceiving treating and rehabilitating persons with mental illness The terms mentally ill and mental patient serve as labels for both professionals family caregivers and members of community to describe the burden the needs of care and treatment for persons with mental illness These labels also justify the establishment and implementation of mental health services Under the influences of the disease model persons with mental illness are regarded as subjects for academic research patients for treatment clients for intervention and objects for stigmatisation and labelling **Mental Handicap** Gillies Owens, Peter Birchenall, 1979 **Sexual Sterilization of the**
