**Raising Your Kids Right** Michelle Ann Abate, 2010-07-14 Dr Seuss's classic character the Lorax has delighted children for decades while passing along a powerful message about environmental responsibility. The book's young readers and their parents would likely be surprised by the emergence of a new character Truax, a kindly logger created by a longtime employee of the wood products industry who not surprisingly has a far different viewpoint to share. Yet the Truax character and the book of the same name is just one example of a growing genre of conservative-themed narratives for young readers spawned by the continuing strength of the American political right. Highlighting the works of William Bennett, Lynne Cheney, Bill O'Reilly and others, Michelle Ann Abate brings together such diverse fields as cultural studies, literary criticism, political science, childhood studies, brand marketing and the cult of celebrity. *Raising Your Kids Right* dispels lingering societal attitudes that narratives for young readers are unworthy of serious political study by examining a variety of texts that offer information, ideology and even instructions on how to raise kids right, not just figuratively but politically.

**Kidding Around** Alexander N. Howe, Wynn Yarbrough, 2014-01-16 *Kidding Around: The Child in Film and Media* is a collection of essays generated by a conference of the same title held at the University of the District of Columbia. The works gathered examine a variety of children's media, including texts produced for children, e.g. children's books, cartoons, animated films, as well as texts about children, e.g. feature length films, literature, playground architecture, parenting guides. The primary goal of *Kidding Around* is to analyze and contextualize contested representations of childhood and children in various twentieth and twenty-first century media while accounting for the politics of these narratives. Each of the essays gathered offers a critical history of the very notion of childhood at the same time as it analyzes exemplary children's texts from the twentieth and twenty-first centuries. These chapters depart from various methodological approaches, including psychoanalytic, sociological, ecological and historical perspectives, offering the reader numerous productive approaches for analyzing the moments of cultural conflict and impasse found within the primary works studied. Despite the fact that today children are one of the most coveted demographics in marketing and viewership, academic work on children's media and children in media is just beginning. *Kidding Around* assembles experts from this inchoate field, opening discussion to traditional and non-traditional children's texts.
