Complicity in Fin-de-siècle Literature Helen Craske,2025-05-17 Complicity in Fin de siècle Literature examines late nineteenth century French understandings of literature as a morally collusive medium which implicates readers writers and critics in risqué or illicit ideas and behaviour It considers definitions of complicity from the period's evolving legal statutes critical debates about literary bad influence and modern theories of reader response in order to achieve a deeper understanding of how cultural production of the period forged relationships of implication and collusion While focusing on fin de siècle French culture the book's theoretical discussions provide a new terminology and conceptual framework through which to analyse literary influence and reception applicable to different historical periods and national settings

Interdisciplinary in nature the study draws on methods associated with close reading literary history law and literature studies cultural studies and sociology of literature Each of the book's chapters highlights how particular literary themes or techniques encouraged readers identification with transgression and facilitated alternative forms of solidarity The analysis draws on a range of case studies from different media forms including Naturalist Decadent and psychological novels biographically revealing fiction romans clef little magazines petites revues and saucy magazines revues larges Texts written by well known literary figures such as mile Zola Octave Mirbeau and Rachilde appear alongside previously overlooked periodical and archival sources The book's varied corpus reveals the widespread appeal of risqué topics and illicit solidarity across the literary spectrum

What Nostalgia Was Thomas Dodman,2018-01-05 In What Nostalgia Was historian Thomas Dodman traces the history of clinical nostalgia from when it was first coined in 1688 to describe deadly homesickness until the late nineteenth century when it morphed into the benign yearning for a lost past we are all familiar with today Dodman explores how people both doctors and sufferers understood nostalgia in late seventeenth century Swiss cantons where the first cases were reported to the Napoleonic wars and to the French colonization of North Africa in the latter 1800s A work of transnational scope over the longue durée the book is an intellectual biography of a transient mental illness that was successively reframed according to prevailing notions of medicine romanticism and climatic and racial determinism At the same time Dodman adopts an ethnographic sensitivity to understand the everyday experience of living with nostalgia In so doing he explains why nostalgia was such a compelling diagnosis for war neuroses and generalized socioemotional disembeddedness at the dawn of the capitalist era and how it can be understood as a powerful bellwether of the

psychological effects of living in the modern age
