Martials Tudor Verse:

Milton and the Martial Muse James A. Freeman, 2014-07-14 Combining historical scholarship with literary criticism James Freeman provides a comprehensive study of the pro war tradition that dominated Renaissance thought and of John Milton's rejection of that tradition in *Paradise Lost* Originally published in 1981 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Representing War and Violence Joanna Bellis, Laura Slater, 2016 An examination of written and other responses to conflict in a variety of forms and genres from the thirteenth to the seventeenth century War and violence took many forms in medieval and early modern Europe from political and territorial conflict to judicial and social spectacle from religious persecution and crusade to self mortification and martyrdom from comedic brutality to civil and domestic aggression Various cultural frameworks conditioned both the acceptance of these forms of violence and the protest that they met with the elusive concept of chivalry Christianity and just war theory political ambition and the machinery of propaganda literary genres and the expectations they generated and challenged The essays here from the disciplines of history art history and literature explore how violence and conflict were documented depicted narrated and debated during this period They consider manuals created for and addressed directly to kings and aristocratic patrons romances whose affective treatments of violence invited profoundly empathetic even troublingly pleasurable responses diaries and autobiographies compiled on the field and redacted for publication and self promotion The ethics and aesthetics of representation as much as the violence being represented emerge as a profound and constant theme for writers and artists grappling with this most fundamental and difficult topic of human experience JOANNA BELLIS is the Fitzjames Research Fellow in Old and Middle English at Merton College Oxford LAURA SLATER holds a Postdoctoral Fellowship from The Paul Mellon Centre for Studies in British Art in London Contributors Anne Baden Daintree Anne Curry David Grummitt Richard W Kaeuper Andrew Lynch Christina Normore Laura Slater Sara V Torres Matthew Woodcock *Thomas Churchyard* Matthew Woodcock, 2016-10-27 Soldier courtier author entertainer and amateur spy Thomas Churchyard c 1529 1604 saw action in most of the principal Tudor theatres of war was a servant to five monarchs and had a literary career spanning over half a century during which time he produced over fifty different works in a variety of forms and genres Churchyard's struggles to subsist as an author and soldier provides an unrivalled opportunity to examine the self promotional strategies employed by an individual who attempts to make a living from both writing and fighting and who experiments throughout his life with ways in which the arts of the pen and sword may be reconciled and aligned Drawing on extensive archival and literary sources Matthew Woodcock

reconstructs the extraordinary life of a figure well known yet long neglected in early modern literary studies In the first ever book length biography of Churchyard Woodcock reveals the author to be a resourceful and innovative writer whose long literary career plays an important part in the history of professional authorship in sixteenth century England This book also situates Churchyard alongside contemporary soldier authors such as Henry Howard Earl of Surrey George Gascoigne and Sir Philip Sidney and it makes a significant contribution to our understanding of the relationship between literature and the military in the early modern period Churchyard s writings drew heavily upon his own experiences at court and in the wars and the author never tired of drawing attention to the struggles he endured throughout his life Consequently this study addresses the wider methodological question of how we should construct the biography of an individual who was consistently preoccupied with telling his own story *The Ballad History of the Reigns of the Later Tudors* Charles Harding Firth,1909

Culture Rory Rapple,2009-01-08 Examines the careers and political thinking of Elizabethan martial men whose military ambitions were thwarted by a quietist foreign policy **Martial Books and Tudor Verse** G. Geoffrey Langsam,1951 Looks at the popular interest in military books and the narrative verse to familiarize the reader of today with what the 16th century reader and theatergoer was likely to know of military matters *Aspects of Violence in Renaissance Europe* Jonathan Davies,2016-04-08 Interest in the history of violence has increased dramatically over the last ten years and recent studies have demonstrated the productive potential for further inquiry in this field The early modern period is particularly ripe for further investigation because of the pervasiveness of violence Certain countries may have witnessed a drop in the number of recorded homicides during this period yet homicide is not the only marker of a violent society This volume presents a range of contributions that look at various aspects of violence from the fourteenth to the seventeenth centuries from student violence and misbehaviour in fifteenth century Oxford and Paris to the depiction of war wounds in the English civil wars The book is divided into three sections each clustering chapters around the topics of interpersonal and ritual violence war and justice and the law Informed by the disciplines of anthropology criminology the history of art literary studies and sociology as well as history the contributors examine all forms of violence including manslaughter assault rape riots war and justice

Previous studies have tended to emphasise long term trends in violent behaviour but one must always be attentive to the specificity of violence and these essays reveal what it meant in particular places and at particular times

Unto the Breach Patricia A. Cahill, 2008-11-13 The Elizabethan theatrical repertory was enthralled with the era's martial discourses and beset by its blinding visions In her richly historicized account of the theater's engagement with modern warfare Patricia Cahill juxtaposes the new military technologies and new modes of martial abstraction with the performance of war suffused dramas by Shakespeare Marlowe and their contemporaries Equally important she shows that even as early modern playwrights engaged cutting edge military practices they routinely trafficked in phenomena resistant to the new rationalities conjuring up a domain of eerie sounds uncanny figures and haunted temporalities By going beyond the usual protocols of historicist criticism and emphasizing the complex dynamics of theatrical modes of address this wide ranging study investigates the representation of early modern war trauma and recovers for us a compelling sense of the intimate relationship between affect and intellect on the Renaissance stage Intervening in ongoing conversations about the drama's role in shaping the cultural imaginary *Unto the Breach* shows that in an era of escalating militarization England's first commercial theaters offered their audiences something of incalculable value namely a space for the performance and working through of what might otherwise remain psychically unbearable in war's violence
