Martin Heidegger And The Question Of Literature:

Martin Heidegger and the Question of Literature William V. Spanos,1979 Poetry and the Question of Modernity

Ian Cooper,2020-01-15 Interest in Martin Heidegger was recently reawakened by the revelations in his newly published Black Notebooks of the full terrible extent of his political commitments in the 1930s and 1940s The revelations reminded us of the dark allegiances co existing with one of the profoundest and most important philosophical projects of the twentieth century one that is of incomparable importance for literature and especially for poetry which Heidegger saw as embodying a receptiveness to Being and a resistance to the instrumental tendencies of modernity Poetry and the Question of Modernity From Heidegger to the Present is the first extended account of the relationship between Heidegger s philosophy and the modern lyric It argues that some of the best known modern poets in German and English from Paul Celan to Seamus Heaney and Les Murray are in deep imaginative affinity with Heidegger s enquiry into finitude language and Being But the work of each of these poets challenges Heidegger because each appeals to a transcendence taking place in language that is inseparable from the motion of encounter with embodied others It is thus poetry which reveals the full measure of Heidegger s relevance in redefining modern selfhood and poetry which reveals the depth of his blindness The Question Concerning

Technology, and Other Essays Martin Heidegger,1982-01-19 To read Heidegger is to set out on an adventure The essays in this volume intriguing challenging and often baffling to the reader call him always to abandon all superficial scanning and to enter wholeheartedly into the serious pursuit of thinking Heidegger is not a primitive or a romantic He is not one who seeks escape from the burdens and responsibilities of contemporary life into serenity either through the re creating of some idyllic past or through the exalting of some simple experience Finally Heidegger is not a foe of technology and science He neither disdains nor rejects them as though they were only destructive of human life The roots of Heidegger s hinking lie deep in the Western philosophical tradition Yet that thinking is unique in many of its aspects in its language and in its literary expression In the development of this thought Heidegger has been taught chiefly by the Greeks by German idealism by phenomenology and by the scholastic theological tradition In him these and other elements have been fused by his genius of sensitivity and intellect into a very individual philosophical expression William Lovitt from the Introduction **On the Essence of**

Language Martin Heidegger,Yvonne Unna,2004-09-15 This important early Heidegger text sheds new light on his later focus on language *Being and Time* Martin Heidegger,1996-01-01 A new definitive translation of Heidegger s most important work

Heidegger Christopher Fynsk,1993 Christopher Fynsk offers a sustained critical reading of works written by Martin Heidegger in the period 1927 1947 His guiding concerns are Heidegger s notions of human finitude and difference which Fynsk first addresses through an analysis of the role played by *Mitsein* in *Being and Time* This analysis in turn affords a critical perspective on Heidegger s own interpretive encounters with Nietzsche and Holderlin For the paperback Fynsk has added a new chapter on the recent controversy surrounding Heidegger s politics Polemical in style it seeks to define what is

at stake in the Heidegger affair and points to some of the questions for philosophy and politics raised by the new legibility of Heidegger's political engagements **Literature's Sensuous Geographies** S. Moslund, 2015-03-12 Using place studies within a postcolonial context this study explores the sense aesthetic dimensions in literature such as smell sound etc that often challenge the rationalizing logic of modernity Through close readings of writers such as Conrad and Coetzee Moslund invites scholars to shift focus from discourse analysis to aesthetic analysis **Martin Heidegger** Timothy Clark, 2011-03-25

Since the publication of his mammoth work Being and Time Martin Heidegger has remained one of the most influential figures in contemporary thought and is a key influence for modern literary and cultural theory This guidebook provides an ideal entry point for readers new to Heidegger outlining such issues and concepts as the limits of theory the history of being the origin of the work of art language the literary work poetry and the political Heidegger's involvement with Nazism Fully updated throughout and featuring a new section on environmental thought and ecocriticism this guidebook clearly and concisely introduces Heidegger's crucial work relating to art language and poetry and outlines his continuing influence on critical theory **The End of Philosophy** Martin Heidegger, 2003-04-15 Joan Stambaugh's translations of the works of Heidegger accomplished with his guidance have made key aspects of his thought and philosophy accessible to readers of English for many years This collection writes Stambaugh contains Heidegger's attempt to show the history of Being as metaphysics combining three chapters from the philosopher's Nietzsche Metaphysics as a History of Being Sketches for a History of Being as Metaphysics and Recollection in Metaphysics with a selection from Vorträge und Aufsätze Overcoming Metaphysics

On the Essence of Language and the Question of Art Martin Heidegger, 2022-11-29 The texts and notes collected in this volume offer unique insight into the development of Heidegger's thinking on language and art from the late 1930s to the early 1950s a tumultuous period both for Heidegger personally and for Germany as a whole Following Germany's defeat in World War II Heidegger was banned from teaching at Freiburg University where he had been a professor since 1928 and his thinking underwent significant changes as he began to cultivate different modes of silence and non saying in his philosophy of language This volume illuminates these shifts and charts the evolution of key terms in Heidegger's philosophy of language during this key period in the development of his thought The central theme of Heidegger's reflections on language in this volume is his repeated engagement with the character of the word silence and the unsaid and his rejection of the instrumental conception of language where he instead prioritized conversation as the homeland of language Alongside references to Hölderlin and von Hofmannsthal and shrewd scrutiny of aural phenomena such as silent thought and speechlessness speech is demonstrated to be intimately connected to the human essence In a later section Heidegger examines the place of art in particular the plastic arts and the role of the artist in conjunction with the new industrial landscape and architecture of his time and in juxtaposition with ancient Greek attitudes to space and the polis This key work by Heidegger now available in English for the first time will be of great interest to students and scholars of philosophy and to

anyone interested in Heidegger's thought **Logic** Martin Heidegger, 2010-03-22 Heidegger's radical thinking on the meaning of truth in a clear and comprehensive critical edition *Philosophy in Review* Martin Heidegger's 1925-26 lectures on truth and time provided much of the basis for his momentous work *Being and Time* Not published until 1976 three months before Heidegger's death as volume 21 of his *Complete Works* it is nonetheless central to Heidegger's overall project of reinterpreting Western thought in terms of time and truth The text shows the degree to which Aristotle underlies Heidegger's hermeneutical theory of meaning It also contains Heidegger's first published critique of Husserl and takes major steps toward establishing the temporal bases of logic and truth Thomas Sheehan's elegant and insightful translation offers English speaking readers access to this fundamental text for the first time **Logic as the Question Concerning the Essence of Language** Martin Heidegger, 2009-08-06 Aims to transform logic into a reflection on the nature of language **Journal of Commonwealth and Postcolonial Studies**, 1993 **Plato and Heidegger** Francisco J. Gonzalez, 2009 A study of Martin Heidegger's engagement with the philosophy of Plato Examines how Heidegger's understanding and misunderstanding of Plato can help in assessing Heidegger's own philosophical program Provided by publisher **Sounding/Silence** David Nowell Smith, 2013-09-02 Goku's life is hanging by a thread Gohan and Kuririn must use the seven Dragon Balls of Namek to summon the mighty Dragon Lord **Heidegger on Literature, Poetry, and Education after the "Turn"** James M. Magrini, Elias Schwieler, 2017-08-07 Offering new and original readings of literature poetry and education as interpreted through the conceptual lens of Heidegger's later philosophy of the Turn this book helps readers understand Heidegger's later thought and presents new takes on how to engage the themes that emerged from his later writing Suggesting novel ways to consider Heidegger's ideas on literature poetry and education Magrini and Schwieler provide a deep understanding of the Turn a topic not often explored in contemporary Heideggerian scholarship Their inter and extra disciplinary postmodern approaches offer a nuanced examination taking into account Heidegger's controversial place in history and filling a gap in educational research **On Heidegger's Nazism and Philosophy** Tom Rockmore, 1997-01-01 American philosopher Tom Rockmore boldly refutes suggestions that German philosopher Martin Heidegger's political stance was accidental or adopted under coercion Rockmore argues that Heidegger's thought and his Nazism are inseparably intertwined Combining extensive documentation with philosophical and historical analysis this book raises profound questions about the social and political responsibility of philosophy **Being and Time** Martin Heidegger, 2008-07-22 What is the meaning of being This is the central question of Martin Heidegger's profoundly important work in which the great philosopher seeks to explain the basic problems of existence A central influence on later philosophy literature art and criticism as well as existentialism and much of postmodern thought *Being and Time* forever changed the intellectual map of the modern world As Richard Rorty wrote in the *New York Times Book Review* You cannot read most of the important thinkers of recent times without taking Heidegger's thought into account This first paperback edition of John Macquarrie and Edward Robinson's definitive translation also

features a new foreword by Heidegger scholar Taylor Carman [The Event](#) Martin Heidegger, 2013 The Event Complete Works volume 71 is part of a series of Heidegger's private writings in response to Contributions **The Understanding of Difference in Heidegger and Derrida** Douglas Lee Donkel, 1992 This study examines the complex relationship between Martin Heidegger's concept of Difference and Jacques Derrida's neologism Différance in light of the problem of Being Set in a theological context it argues that Derrida's reflections call into question Heidegger's account of Difference thus problematizing the Seinsfrage and forestalling any theological appropriation of Being Further it argues that Derrida's discourse on Différance is itself paradoxical indicating its status is logically undecidable Inspired by Heidegger's charge to think the Difference this work characterizes Derrida's thought as a response to this mandate and takes as its own task the further thinking through of the problematics of Difference in these thinkers
