Maru Killer:

Crash Dive Larry Bond, 2011-03-29 They are the ultimate unseen deterrent in modern warfare Thousands of tons of steel missiles torpedoes and men lurking silently hundreds of feet underwater able to lie off any coastline and unleash a devastating hail of destruction with pinpoint accuracy They are the true masters of the oceans striking swift and unseen before slipping away ready to do it all over again at a moment's notice Submarines and their crews have long held a revered place in the military with a special place of honor reserved for those men who willingly seal themselves in what could amount to a nuclear powered coffin for months on end Although the submarine is a relatively recent development in the field of warfare many of the men who live and fight in these steel fish have already become legends Edited by bestselling author Larry Bond *Crash Dive* collects the best nonfiction writing about these near silent killers of the deep and their crews From the tough *Gato* class boats that harassed the Japanese Navy during World War II to the cat and mouse games played by U S and Soviet submarines during the Cold War *Crash Dive* will take you inside the deep and deadly world of the military submarine

Surface and Destroy Michael Sturma, 2011-03-25 World War II submariners rarely experienced anything as exhilarating or horrifying as the surface gun attack Between the ocean floor and the rolling whitecaps above submarines patrolled a dark abyss in a fusion of silence shadows and steel firing around eleven thousand torpedoes sinking Japanese men of war and more than one thousand merchant ships But the anonymity and simplicity of the stealthy torpedo attack hid the savagery of warfare a stark difference from the brutality of the surface gun maneuver As the submarine shot through the surface of the water confined sailors scrambled through the hatches armed with large caliber guns and met the enemy face to face *Surface and Destroy* The Submarine Gun War in the Pacific reveals the nature of submarine warfare in the Pacific Ocean during World War II and investigates the challenges of facing the enemy on the surface The surface battle amplified the realities of war bringing submariners into close contact with survivors and potential prisoners of war As Japan's larger ships disappeared from the Pacific theater American submarines turned their attention to smaller craft such as patrol boats schooners sampans and junks Some officers refused to attack enemy vessels of questionable value while others attacked reluctantly and tried to minimize casualties Michael Sturma focuses on the submariners' reactions and attitudes toward their victims exploring the sailors' personal standards of morality and their ability to wage total war *Surface and Destroy* is a thorough analysis of the submariner experience and the effects of surface attacks on the war in the Pacific offering a compelling study of the battles that became intolerably personal
