justice and economic systems making them figures of enduring importance in political and philosophical discourse

**Marxism and Council Communism** Peter J. Rachleff, 1976    *Marx and Marxism* Peter Worsley, 2013-08-21 Karl Marx probably had more influence on the political course of the last century than any other social thinker. There are many different kinds of Marxism and the Twentieth Century saw two huge Marxist states in total opposition to one another. In the West Marxism has never presented a revolutionary threat to the established order though it has taken root as the major theoretical critique of capitalist society in intellectual circles and new interpretations of Marx's thought appear each year. Peter Worsley discusses all these major varieties of Marxism distinguishing between those ideas which remain valid those which are contestable and those which should now be discarded. Rather than treating Marxism purely as a philosophy in the abstract he concentrates upon the uses to which Marxism has been put and emphasises the connections between the theoretical debates and political struggles in the real world.    *Marxism and the Leap to the Kingdom of Freedom* Andrzej Walicki, 1995 The aim of this book is to carefully reconstruct Marx and Engels's theory of freedom to highlight its centrality for their vision of the communist society of the future to trace its development in the history of Marxist thought including Marxism-Leninism and to explain how it is possible for it to be transformed at the height of its influence into a legitimization of totalitarian practices. The relevance of the Marxist conception of freedom for an understanding of communist totalitarianism derives from the historical fact that the latter came into being as a the result of a conscious strenuous striving to realize the former. The Russian Revolution suppressed bourgeois freedom to pave the way for the true freedom of communism. Totalitarianism was a by-product of this immense effort. The last section of the book gives a concise analysis of the dismantling of Stalinism involving not only the gradual detotalitarianization but also the partial decommunization of really existing socialism. Throughout Marxism is treated as an ideology that has compromised itself but that nevertheless deserves to be seen as the most important however exaggerated and ultimately tragically mistaken reaction to the multiple shortcomings of capitalist societies and the liberal tradition.    From Class Society to Communism Ernest Mandel, 1977 ,
