## **Marxism And Alternatives:**

*Post-Marxist Alternatives* Nicos P. Mouzelis, 1992-06-18 Mouzelis puts forward a post Marxist conceptual framework which overcomes economic reductionism while retaining some distinctive features of the Marxist paradigm which are seen to be indispensable for an examination of how whole social orders are constituted maintained and transformed **Marx** Kieran Allen, 2017 Rethinking Alternatives with Marx Marcello Musto, 2021-10-30 This book presents a Marx that is in many ways different from the one popularized by the dominant currents of twentieth century Marxism The dual aim of this edited volume is to contribute to a new critical discussion of some of the classical themes of Marx's thought and to develop a deeper analysis of certain questions to which relatively little attention has been paid until recently Contributions of globally renowned scholars from nine countries and multiple academic disciplines offer diverse and innovative perspectives on Marx's points of view about ecology migration gender the capitalist mode of production the labour movement globalization social relations and the contours of a possible socialist alternative The result is a collection that will prove indispensable for all specialists in the field and which suggests that Marx's analyses are arguably resonating even more strongly today than they did in his own time **Marxism and Alternatives** I Rockmore, W.J. Gavin, J.G. Colbert Jr., J.E. Blakeley, 2012-12-06 Contemporary philosophy is by its nature pluralistic to a perhaps greater extent than at any moment of the preceding tradition in that there are multiple forms of thought competing for a position on the center of the philosophic stage The reasons for this conceptual proliferation are numerous But certainly one factor is the increasing development of contemporary means of publication and communication which in turn make possible the rapid dissemination of ideas as well as an informed reaction to them And this in turn has increased the possibility for serious philosophic exchange by enhancing the available opportunities for the interaction of competing forms of thought But although informed philosophic interaction has in principle become increasingly possible in recent years the frequency scope and quality of such discussion has often been less than satisfactory Contemporary philosophic viewpoints tend not to interact in a Hegelian manner as complementary aspects of a totally satisfactory and a perspectival view facets of a singly and all embracing true position Rather contemporary philosophic viewpoints tend to portray themselves as mutually exclusive alternatives only occasionally willing to acknowledge the possible validity or even the intrinsic interest of other perspectives Thus although the multiplication of different forms of philosophy in principle means that there are greater possibilities for meaningful exchange between them in practice the tendency of each of the various philosophic positions to raise claims to philosophic truth from its point of view alone has had the effect of impeding such interaction **Marx's Concept of the Alternative to Capitalism** Peter Hudis, 2012-07-25 This is the first book length study of Marx's concept of the alternative to capitalism It shows that his critique of capital flowed from a commitment to a specific vision of the kind of human relations that define a new society **Revolution and Its Alternatives** Tom Brass, 2018-11-26 Against the usual argument heard most frequently

on the left that there is no subject for a radical politics together with its form of political mobilization there is but in the absence of a radical leftist project this subject has in the past transferred and in many instances is still transferring his her support to the radical politics on offer from the other end of the ideological spectrum The combination of on the one hand a globally expanding industrial reserve army generating ever more intense competition in the labour markets of capitalism and on the other the endorsement by many on the left not of class but rather of non class identities espoused by the new populist postmodernism has fuelled what can only be described as a perfect storm politically speaking **Alternatives to**

**Capitalism** Jon Elster,Karl Ove Moene,1989 Marxism and Alternatives I. Rockmore,W. J. Gavin,J. G. Colbert

Jr,1981-10-31 *Marx and the Alternative to Capitalism* Kieran Allen,2011-05-06 If we are serious about finding a different way to run the post recession society we must start by introducing alternatives to undergraduates Kieran Allen begins the task with an accessible and comprehensive look at the ideas of Karl Marx Dispensing with the dryness of traditional explanations of Marx Allen shows how Marx s ideas apply to modern society The first section briefly outlines Marx s life and the development of his work then goes on to clearly explain his key theories including historical materialism and surplus value The second section examines alternatives to capitalism the concept of anti capitalism and provides concrete contemporary examples of Marx s theories being put into practice in today s world **The Alternative Future** Roger

Garaudy,1974 Socialism: The Only Practical Alternative to Contemporary Capitalism Tatah Mentan,2012 Since the end of World War II global capitalism spearheaded by US financial interests and backed by the most lethal military force that has ever been assembled has consolidated its power over the world economy In the past decades especially transnational corporations have tightened their control over national governments and international institutions The imposition of free trade policies and the increasing privatization of social services have facilitated the accumulation of fabulous wealth for the owners of capital at the expense of working people and the environment worldwide Contemporary capitalism now dominates every major sector of the world economy The social and environmental costs of contemporary capitalism are prohibitive The global megatrends of rising inequality and absolute poverty political instability and global climate change all compounded and accelerated by this predatory mode of production are adversely affecting the lives and threatening the future of every inhabitant of nations and the entire world In view of these megatrends and the current global economic crisis the conclusion that contemporary capitalism does not serve the interests of the vast majority of the people on the planet and is both economically and environmentally unsustainable is self evident History offers harsh lessons The political violence of the 20th century which resulted in an estimated 200 million deaths and untold economic and environmental destruction cautions us to work for socialism in the 21st century with every means at our disposal except violence Facing the awful power and willingness of capitalism to coerce and corrupt we must find ways to make soft power prevail Clearly a revolution is in order it is time to place the socialist alternative on the national and world agenda *Social Analysis* Victor Leonard Allen,1975

This book extends the current increasing arguments about the ability of Western sociology to explain the contradictions and crises in Western capitalism. It argues for the rejection of Western sociology and presents an alternative body of analysis to it. It contends that the purpose of social theory must be to clarify and explain the complexities of social reality as they are experienced by ordinary people, that Western sociology fails to do this because it rests on an assumption which grossly distorts that reality. The first part of the book presents the general case for the rejection of Western sociology. The second part shows that the dominant models in sociology, particularly as they are used in the study of organizations, are based on a misrepresentation of social reality through their assumption that societies are relatively static, basically unchanging phenomena. It illustrates that this misrepresentation has led to a concentration on trivia and a diversion from any substantial issues which might result in unsettling questions being asked. It emphasizes that Western sociology has the important political consequence of making it appear that the source of all social problems lies in the trivia and not in the structure of society itself. The third part takes the book further than most contemporary criticisms of Western sociology by presenting Marxism as a dynamic, logically sound theory which could displace Western sociology at every level of analysis.

The Alternative in Eastern Europe Rudolf Bahro, 2020-05-05. The contemporary Marxist writer provides analyses of socialist theory, modern political struggle, and socialist societies in Eastern Europe.

**Social Theory for Alternative Societies** Matt Dawson, 2017-09-16. This book traces a unique story of social theory, one which focuses on its role in offering ideas for alternative societies. In charting this story, Matt Dawson argues that the differences in alternatives offered by social theorists not only demonstrate the diversity in and value of sociological perspectives but also emphasize competing ideas of the role of intellectuals in social change. The text discusses a collection of social theorists from key figures such as Marx, Durkheim, and Du Bois to less well-known or now commonly overlooked writers such as Levitas, Lefebvre, and Mannheim. It explains their use of the tools of sociology to critique society and provide visions for alternatives, highlighting elements of the intellectual backgrounds of movements such as socialism, anti-racism, feminism, and cosmopolitanism. *Social Theory for Alternative Societies* not only explores in detail a variety of thinkers but also reflects on the relevance of sociology today and on the connection between social theory and the real world. Thus, it will be of interest to students of sociology and those interested in ideas for a better society.

Critical Marxist Theory Lukas Meisner, 2025-06-08. This book argues why Critical Theory, as first developed in the *Zeitschrift für Sozialforschung*, must be updated to help us tackle today's capitalist polycrisis from economic via political to ecological crises. Yet following the dissolution of the Institute for Social Research in New York and the latest with the death of Adorno in 1969 and the death of Marcuse almost exactly ten years later, there has been a domestication of the main strands of the Frankfurt School. To understand and overcome this domestication, the book traces with the means of philosophy and sociology its two affirmative steps in a liberal and in a postmodern turn. As an alternative to both, it defends Habermas' project of modernity yet only by disentangling it in Marxian fashion from the capitalist process of

modernisation This disentanglement is at the same time a political radicalisation It is necessary because the cultural political ideal s of the project of modernity from human autonomy via rational society to qualitative individuality can only be realised beyond the framework of capitalism As their conceptual concentrate the book proposes political autonomy as a key concept confined neither by Kantian or liberal approaches nor by autonomist or operaist traditions Rather it draws on thinkers like Herbert Marcuse Ellen Meiksins Wood and Martin H gglund to rephrase Marxist concepts such as social freedom democratic socialism and the end of prehistory In this way political autonomy is developed both as a legit criterion for justified critique and as the philosophical foundation and emancipatory goal of a pluralist yet transcapist Critical Marxist Theory

**Marx's Capital after 150 Years** Marcello Musto,2019-09-23 Faced with a new crisis of capitalism many scholars are now looking back to the author whose ideas were too hastily dismissed after the fall of the Berlin Wall During the last decade Marx s Capital has received renewed academic and popular attention It has been reprinted in new editions throughout the world and the contemporary relevance of its pages is being discussed again Today Marx s analyses are arguably resonating even more strongly than they did in his own time and Capital continues to provide an effective framework to understand the nature of capitalism and its transformations This volume includes the proceedings of the biggest international conference held in the world to celebrate the 150th anniversary of Capital s publication The book is divided into three parts I Capitalism Past and Present II Extending the Critique of Capital III The Politics of Capital It contains the contributions of globally renowned scholars from 13 countries and multiple academic disciplines who offer diverse perspectives and critical insights into the principal contradictions of contemporary capitalism while pointing to alternative economic and social models Together they reconsider the most influential historical debates on Capital and provide new interpretations of Marx s magnum opus in light of themes rarely associated with Capital such as gender ecology and non European societies The book is an indispensable source for academic communities who are increasingly interested in rediscovering Marx beyond 20th century Marxism Moreover it will be of great appeal to students as well as established scholars interested in critique of capitalism and socialist theory *Marxism Versus Socialism* Vladimir Gregorievitch Simkhovitch,1913 *Structure, Agency and Biotechnology* Aristeidis Panagiotou,2017-07-03 *Structure Agency and Biotechnology* argues for the significance of sociological theory and highlights the insights it can offer to the study of agricultural biotechnology Cautioning against a simplistic reading of the GM controversy as merely a debate of science versus politics Aristeidis Panagiotou suggests that the discussion should be embedded in the wider social political economic and cultural contexts *Structure Agency and Biotechnology* assesses the 2012 Rothamsted GM wheat trials and proposes that the tension underlying GM technology should be resolved through sustained dialogue public involvement and broad scientific consensus *Post-marxist Alternatives* Nicos Panayiotou Mouzelis (Sociologist, Great Britain),1990 *Marxism and Social Science* Martin Shaw,1975
