Marxism Of Our Time:

Marxism in Our Time Isaac Deutscher, 1971 Marx for Our Times Daniel Bensaïd, 2002 Without denying the contradictory character of Marx's thought Daniel Bensaïd sets out to demonstrate that it was not a philosophy of the end of history an empirical sociology of classes or a positive science of economics positing an inexorable progress towards an ineluctable communism Instead Marx's critique of political economy encompassed three great critiques of the scientific and political canons of its age of historical reason sociological rationality and scientific positivism which make the thinker from the nineteenth century fully relevant to the twenty first century of global capitalism Indeed we find here a post postmodern Marx able to inhabit a contemporary world replete with contingency emergency and contradictory temporalities Published in France on the eve of the strikes of 1995 that signalled a profound revolt against *la pensée unique* Marx for Our Times is an invitation to rediscover our foremost contemporary Karl Marx Marxism in Our Time Leon Trotsky, 1970 **Marxism and the Open Mind** John Lewis, 2017-07-12 In *Marxism and the Open Mind* John Lewis seeks to explain Marxism as a system of thought In doing so he addresses the studied neglect or grotesque misrepresentation that he feels characterizes Western attitudes toward Marxism Lewis also aims to stimulate what he believes to be a long overdue re evaluation of Marxism in the light of what was contemporary thought in 1957 the year of the book's original publication and the height of the Cold War era The essays include chapters on human rights and a discussion on Marxism and liberty Marxist ethics a much neglected theme is the subject of an essay that deals with some of the most deeply felt criticisms of Marxism in the 1950s The ethical aspects of Marxism are examined once again in a contribution to the debate on Marxism and religion The volume concludes with essays on Berdyaev and Sartre which strike a note on the Marxist estimation of these thinkers and with an essay on Marxist humanism The essays cover a wide field of thought uniting a close and sympathetic study of Marxism with a critical judgment rooted in academic training at three universities and experience in the Christian ministry **The Socialism of Our Times** Harry Wellington Laidler, Norman Thomas, 1929 *Trotsky, Trotskyism and the Transition to Socialism* Peter Beilharz, 2019-11-19 First published in 1987 Trotskyists have long dominated the revolutionary tradition on the Western left Written from a critical socialist standpoint this book provides an analysis of Trotskyism and argues that Trotskyism is increasingly irrelevant as a means of achieving socialism It argues that as the realisation grows that the revolutionary tradition and the authoritarianism which necessarily result from it are wrong the importance of the problem of the transition to socialism increases It argues that on this point Trotskyism is weak that Trotskyism's proposals for socialist transition are largely rhetorical and that its democratic impulse is weak It supports this argument by showing that Trotsky's philosophy of history implicit in his writings which the author characterises as evolutionary and necessitarian coupled with a failure to grasp the moral basis of the socialist case has a disabling effect on Trotsky's account of the transition to socialism and on his explanation of Stalinism Moreover it argues that Trotsky's intellectual and political heirs have been unable to escape from

the contradictions inherent in his thought **Marxism of Our Time** Gilles Martinet,1964 British Marxist Criticism Victor N. Paananen,2021-12-12 British Marxist Criticism provides selective but extensive annotated bibliographies introductory essays and important pieces of work from each of eight British critics who sought to explain literary production according to the principles of Marxism **Europe: A Philosophical History, Part 2** Simon Glendinning,2021-07-14 Europe is inseparable from its history That history has been extensively studied in terms of its political history its economic history its religious history its literary and cultural history and so on Could there be a distinctively philosophical history of Europe Not a history of philosophy in Europe but a history of Europe that focuses on what in its history and identity ties it to philosophy In the two volumes of Europe A Philosophical History The Promise of Modernity and Beyond Modernity Simon Glendinning takes up this question telling the story of Europe s history as a philosophical history In the wake of two world wars of European origin Europe s modern promise of universal peace freedom and well being for all humanity lay in ruins In Part 2 Beyond Modernity Glendinning picks up the story of this promise after the Second World War Taking in Isaiah Berlin s defence of a pluralist ideal Francis Fukuyama s vision of a new end of history in liberal democracy and Jacques Derrida s critique of the very idea of an end of history Glendinning invites us to affirm a new philosophical historical self understanding not the history of the rational animal on the way to its final end with Europe at the head but a history of the unpredictably self transforming animal without a final end In this context Glendinning argues Europe remains promising its cosmopolitan heritage opening a future beyond its exhausted modernity Part 1 The Promise of Modernity is available now from Routledge ISBN 9781032015804 **Marxism and the Existentialists: World Perspectives, Volume Forty** Raymond Aron,1969
