Marxs Politics Communists And Citizens:

Marx's Politics Alan Gilbert,1981 *Marxs Politics* Alan Gilbert,2022 Alan Gilbert challenges those who understand Marx s general theory in purely economic terms who have avoided Marx s striking historical explanations his political activity and his theoretical arguments about why differing radical strategies can make a fateful difference in historical outcomes

Marx' Politics Alan Gilbert,1981 Citizen Marx Bruno Leipold,2024-11-19 The first book to offer a comprehensive exploration of Marx s relationship to republicanism arguing that it is essential to understanding his thought In *Citizen Marx* Bruno Leipold argues that contrary to certain interpretive commonplaces Karl Marx s thinking was deeply informed by republicanism Marx s relation to republicanism changed over the course of his life but its complex influence on his thought cannot be reduced to wholesale adoption or rejection Challenging common depictions of Marx that downplay or ignore his commitment to politics democracy and freedom Leipold shows that Marx viewed democratic political institutions as crucial to overcoming the social unfreedom and domination of capitalism One of Marx s principal political values Leipold contends was a republican conception of freedom according to which one is unfree when subjected to arbitrary power Placing Marx s republican communism in its historical context but not consigning him to that context Leipold traces Marx s shifting relationship to republicanism across three broad periods First Marx began his political life as a republican committed to a democratic republic in which citizens held active popular sovereignty Second he transitioned to communism criticizing republicanism but incorporating the republican opposition to arbitrary power into his social critiques He argued that although a democratic republic was not sufficient for emancipation it was necessary for it Third spurred by the events of the Paris Commune of 1871 he came to view popular control in representation and public administration as essential to the realization of communism Leipold shows how Marx positioned his republican communism to displace both antipolitical socialism and anticommunist republicanism One of Marx s great contributions Leipold suggests was to place politics and especially democratic politics at the heart of socialism **Karl Marx And Friedrich Engels - The Communist Manifesto**

David McLellan,2013-05-31 One of the most famous books ever written The Communist Manifesto can claim to have changed the 20th century like no other book A fascinating read for any fans of political history **The Marx of Communism**

Alexandros Chrysis,2022-06-30 Following Marx s own itinerary from Paris to London from politics to the critique of political economy The Marx of Communism delves into a creatively unfolding international debate on the democracy communism relation while supporting a 21st century communism as a social alternative to capitalism Taking into consideration Marx s analysis of communism both as a movement and a social formation this study focuses on the dialectics of transition from capitalism to communism Dealing with communism as the outcome of a long term cultural and political process the author defends Marxian communism as the open ended constitution of a self governed demos whose citizens create their own way of life on the ground of a stateless and classless society From this point of view the end of the state does not mean the end but

the revival of politics in terms of a communist bios Reshaping their collective and personal values and setting limits to the production technology dynamics of their economy this book argues the citizens of a communist polis form a promising antithesis to the private individuals of a capitalist society

Citizen Marx Bruno Leipold, 2024-11-19 A compelling and comprehensive analysis of Marx's social and political thought primarily as it relates to his underappreciated republicanism

Communism, Political Power and Personal Freedom in Marx Levy del Aguila Marchena, 2021-11-23 This book investigates communism in Marx's writings incorporating a consideration of communist politics The author outlines the arguments by which it is possible to sustain from Marx the idea that human emancipation against capital also means the elimination of the State the public and the political dimension of praxis He also posits that the concrete tasks of the management of the common in a communist society require political mediations that allow us to confront the difference inherent to the personality of freely associated producers as well as the ontological finitude from which no technical power can evade Finally assuming Marx as a starting point whose work remains an inescapable source for thinking communism the book proposes a research agenda from Marx and beyond to continue in this imperative task Levy del Aguila Marchena is Senior Professor and Chair of the Department of Management Sciences at the Pontificia Universidad Católica del Perú He has published extensively on Marx political philosophy and applied ethics

Capitalism, Citizenship and the Arts of Thinking Kathryn Dean, 2014-03-26 Capitalism Citizenship and the Arts of Thinking proposes a historical materialist ethic of human flourishing understood in terms of the practice of citizenship It focuses on the ways in which capitalism's necessary mode of thinking analytical thinking impedes the nurturing of capabilities for citizenship as understood from a Marxian Aristotelian point of view It includes a systematic discussion of the Aristotelian resonances in Marx's critique of capitalism as well as an elaboration and critique of Alfred Sohn-Rethel's account of the origins of analytical thinking in his book *Intellectual and Manual Labor A Critique of Epistemology* Dean's critique of this book draws on the language theories of Lev Vygotsky Alexander Luria Jack Goody Eric Havelock and Walter Ong so as to identify the origins of analytical thinking in literacy rather than in monetised exchange relations as claimed by Sohn-Rethel Having traced the development of analytical thinking so as to bring out the ways in which this thinking was a condition of possibility for the division of head and hand in nineteenth century England Dean brings the analysis into the contemporary world by examining the changes effected by digitalised communication in terms citizenship capabilities now drawing on the work of Michael Hardt and Antonio Negri in order to do so The book's ground breaking content is in the fusion of Marxian Aristotelian and linguistic elements to develop a critique of capitalism's hegemonic mode of thinking analytical thinking as manifested in the modern sciences and to show how the draining of intelligibility from the everyday world permitted by this thinking becomes an obstacle to the practice of meaningful citizenship Its main appeal will be to Marxist thinkers whose main concern is with the alienating as opposed to exploitative character of capitalist modes of life It is written to complement the work of such Marxists these being in the

main writers such as Michael Hardt and Antonio Negri and is pitched at researchers in the field It could be used on post graduate courses in political theory as well as social and cultural theory

Marxism and Left-Wing Politics in Europe and Iran Yadullah Shahibzadeh, 2018-09-28 This book reveals aspects of the rise and fall of the European and Iranian Left their conceptualization of Marxism and ideological formations Questions regarding the Left and Marxism within two seemingly different economic political and intellectual and cultural contexts require comprehensive comparative histories of the two settings This project investigates the intellectual transformations which the European and Iranian Left have experienced after the Russian Revolution to the present It examines the impacts of these transformations on their conceptualizations of history and revolution domination and ideology emancipation and universality democracy and equality The monograph will appeal to researchers scholars and graduate students in the fields of political science Middle Eastern and European studies political history and comparative politics

Marx Scott Meikle, 2002 The understanding of the philosophy upon which Karl Marx's work is based has undergone more fundamental changes in the last 30 years of the 20th century than at any time since the death of Engels The articles in this collection have been chosen to represent these changes as they have been registered in the learned journals of the Anglophone world There have been three main loci of change the relation between Marx's work and that of Engels the place of ethics in Marx's work and Marx's relation to the Enlightenment on the one hand and to the Aristotelian tradition in philosophy on the other

McCarthy, 1990-08-30 Marx and the Ancients is the first book length treatment to detail the relationship between classical Greek philosophy and Karl Marx's critique of political economy From his dissertation on the physics and astronomy of Epicurus and Democritus to his later economic writings Marx's view of the classical polis left its mark George McCarthy argues that this forgotten element in Marx's thought helps clarify his positions on ethics and social justice
