Merchant Ships 1943 Eric Charles Talbot-Booth,1978      Merchant Sailors at War, 1943-1945 Philip Kaplan,2015-06-15

The Battle of the Atlantic was the dominating factor all through the war Never for one moment could we forget that everything happening elsewhere on land at sea or in the air depended ultimately on its outcome Winston ChurchillFeatured in this new volume from Philip Kaplan are images of some of the most iconic and important merchant ships of the latter years of the Second World War along with intriguing shots of the men who sailed and worked on them The indomitable HMS Sackville the only surviving corvette of the Second World War is afforded particularly prominent coverage alongside a host of lesser known but equally formidable ships The Corvettes vessels that escorted convoys throughout the war were amongst the wettest and most uncomfortable of all warships and their crews were undoubtedly amongst the most heroic This volume is in effect a photo essay on the corvette Escorting the convoy system of defensive Allied boats in the Atlantic and tasked with preventing merchant ships from being sunk by German submarines and U boats the Corvette s job was invaluable This history told in words and images is sure to appeal to all military and maritime enthusiasts representing an exciting addition to the established Images of War series      **Merchant Ships, 1943. **History of United States Naval Operation in World War II.** Samuel Eliot Morison, 1947      **Ships of the Esso Fleet in World War II.** Standard Oil Company, 1946      Convoy SC122 & HX229 Martin Middlebrook, 2011-07-12

The author of *The First Day on the Somme* details a naval skirmish that became a turning point for the Battle of the Atlantic during World War II Winston Churchill wrote The only thing that ever really frightened me during the war was the U boat peril Had the convoy link between North America and Britain been broken the course of World War II would have been different There was a period during the winter of 1942 43 when the Germans almost cut the North Atlantic lifeline In the first twenty days of March 1943 the Germans sank ninety seven Allied merchant ships twice the rate of replacement During the same period seven U boats were lost and fourteen put in service No wonder Churchill was worried Early in March 1943 Convoys SC122 and HX229 sailed from New York harbor for England and Admiral Doenitz deployed forty two U boats to entrap them Twenty one merchant ships were sunk in the ensuing battle The Germans called it the greatest convoy battle of all time This book documents the convoys every maneuver of the merchant ships their escort vessels the long range aircraft cover and the attacking U boats in a powerful narrative reminiscent of Nicholas Monsarrat s bestselling novel *The Cruel Sea* In many ways this book could be the story of any of the hundreds of convoys that sailed the ocean during the war Middlebrook also elucidates three controversial aspects of the Battle of the Atlantic why there was an Air Gap long after full air cover could have been provided why the convoys had to sail with dangerously weak naval escorts and how the Allied outwitted the Germans in the radio decoding war
