*Civil Society, Associations and Urban Places* Boudien de Vries,2016-12-05 In recent years the concept of civil society has become central to the historian s understanding of class cultural and political power in the nineteenth century town and city Increasingly clubs and voluntary societies have been regarded as an important step in the formation of formal political parties particularly for the working and middle classes The result of this is the assertion that the more associations existing in a particular society the deeper democracy becomes entrenched In order to test this hypothesis this volume brings together essays by an international group of urban historians who examine the construction of civil society from associational activity in the urban place From their studies it soon becomes clear that such simple propositions do not adequately reflect the dynamics of nineteenth century urban society and politics Urban associations were ideological in purpose and deliberately discriminatory and as such set the boundaries of civil society Thus competing and segmented associations were not only an indication of pluralism and strength but also highlighted a fundamental weakness when faced down by the interests of the state Through a wide array of urban associations in a broad range of settings comprising Austria and Bratislava France and Italy the Netherlands Austro Hungary England Scotland and the US this volume reflects on the construction of class nation and culture in the associations of the nineteenth century urban place In so doing it shows that a deep and interlocking civil society does not automatically lead to a rise in democratic activity Expansion of the networks of urban association could equally result in greater subdivision and to the fragmentation and isolation of certain groups Partition as much as coherence is our understanding of civil society and associations in the nineteenth century urban place

**Capital City** Thomas Kessner,2004-04-07 At the beginning of the nineteenth century New York City was an undistinguished town competing with Philadelphia and Boston to be America s

dominant port city Just two generations later it had built itself into the country s powerhouse center of trade and finance rivaled only by London as financial capital of the world In Capital City Thomas Kessner tells the story of this remarkable transformation With the advantages of its famous harbor and the opening of the Erie Canal in 1825 New York became the chief commercial center for the growing nation As the shipping industry prospered capital accumulated and a growing banking center emerged New York went on to finance the Union cause during the Civil War open the West to development and consolidate the national railroad system The city s energy and opportunity attracted ambitious men from all over the country whose names became synonymous with big business Vanderbilt Carnegie Rockefeller and Morgan New York s banks set the interest rates for the nation its stock exchange fixed the price of securities its investors transformed American business from family owned enterprises into modern corporations and its growing political clout catapulted public figures such as Samuel Tilden and Teddy Roosevelt onto the national stage Combining political and urban history with a colorful cast of characters Capital City chronicles how Gotham s Gilded Age reshaped the metropolis and the nation as it molded our present day economy

*Philanthropy, Patronage, and Civil Society* Thomas Adam, 2004-02-12 In Philanthropy Patronage and Civil Society Thomas Adam has assembled a comparative set of case studies that challenge long held and little studied assumptions about the modern development of philanthropy Histories of philanthropy have often neglected European patterns of giving and the importance of financial patronage to the emergence of modern industrialized societies It has long been assumed for example that Germany never developed civic traditions of philanthropy as in the United States In truth however 19th century German museums art galleries and social housing projects were not only privately founded and supported they were also blueprints for the creation of similar public institutions in North America The comparative method of the essays also reveals the extent to which the wealthy classes on both sides of the Atlantic defined themselves through their philanthropic activities Contributors are Thomas Adam Maria Benjamin Baader Karsten Borgmann Tobias Brinkmann Brett Fairbairn Eckhardt Fuchs David C Hammack Dieter Hoffmann Simone L ssig Margaret Eleanor Menninger and Susannah Morris
