**The Mercury Reader A Custom Publication** E.D. Schrapp, 2005    *On Anthologies* Jeffrey R. Di Leo, 2004-01-01 Over the course of the past twenty five years anthologies have shifted from playing a relatively minor role in academic culture to a position of dominance. The essays in this collection explore the significant intellectual, economic, political, pedagogical and creative resonance of anthologies through all levels of academic life. They show that anthologies have consequences and are grounded in commitments. Striving to articulate these consequences and commitments is a priority in higher education today. Most of the contributors to this volume are editors of anthologies and they draw on personal experiences to provide a rare glimpse into the economics and logic of anthology publication. Their essays illustrate the ways in which editing an anthology involves negotiation and compromise between intellectual ideal and realistic practice. *On Anthologies* includes discussion of a wide range of anthologies used and produced by teachers and scholars. Though the emphasis is on literature and theory, the insights in this volume speak to professionals in all areas of academic life. Collectively these essays establish the foundation for continuing critical analysis of anthology production and consumption in all disciplines.

**Building Academic Literacy** Audrey Fielding, 2003-04-22 Boost the Engagement and Achievement of Adolescent Readers. *Building Academic Literacy Lessons from Reading Apprenticeship Classrooms* Grades 6-12 features pieces by five middle and high school teachers working with the Reading Apprenticeship instructional framework introduced in *Reading for Understanding* Schoenbach et al. Jossey Bass 1999. Filled with instructional tips, lesson plans, and curriculum resources, this book offers guidance on conducting Academic Literacy courses using readings from the companion student book *Building Academic Literacy: An Anthology for Reading Apprenticeship*. Fielding and Schoenbach Jossey Bass 2003. It can serve as an excellent resource for any content area teacher, grades 6-12, looking for classroom based ideas to motivate adolescents in becoming more active, engaged, and strategic readers. Whenever we read books about teaching, we ask ourselves, But what does that look like in the classroom? *Building Academic Literacy Lessons from Reading Apprenticeship Classrooms* answers the question of what Academic Literacy is, why it matters, and how teachers can develop these key intellectual habits in their students. This book and its companion anthology provide me the guidance and resources that I need. Jim Burke, author, *The Reader's Handbook* and *The English Teacher's Companion*. Following close upon the heels of the widely acclaimed book *Reading for Understanding*, this new two volume companion set *Building Academic Literacy: An Anthology for Reading Apprenticeship* and *Building Academic Literacy Lessons from Reading Apprenticeship Classrooms* is certain to propel Academic Literacy as a course of study into increasingly more middle and high school classrooms. Donna Alvermann, professor of education, University of Georgia, and past president, International Reading Association.
