**Merleau-Ponty Vivant** Martin C. Dillon,1991-08-06 Situates Merleau Ponty s thinking in the last decade of the twentieth century both with regard to general context and specific themes **Modernity and the Hegemony of Vision** David Michael Levin,1993-11-08 A genuine contribution to the literature important especially to specialists in Continental philosophy but also to historians literary theorists and others who read recent European philosophy and who thus would want to think through the problem of the hegemony of vision David Hoy University of California Santa Cruz *Merleau-Ponty* Stephen Priest,2002-11-01 Maurice Merleau Ponty is known and celebrated as a renowned phenomenologist and is considered a key figure in the existentialist movement In this wide ranging and penetrative study Stephen Priest engages Merleau Ponty across the full range of his philosophical thought He considers Merleau Ponty s writings on the problems of the body perception space time subjectivity freedom language other minds physical objects art and being Priest addresses Merleau Ponty s thought in connection with Hegel Husserl Heidegger and Sartre He uses clear and direct language to explain the thoughts of and the ensuing importance of one of the greatest contemporary thinkers Philosophy students and scholars alike will find great pleasure in this fascinating exploration of the writings and ideas of Maurice Merleau Ponty

*Merleau-Ponty's Ontology* Martin C. Dillon,1997 Dillon s general thesis is that Merleau Ponty has developed the first genuine alternative to ontological dualism seen in Western philosophy **Volume 9: Kierkegaard and Existentialism** Jon Stewart,2016-12-05 There can be no doubt that most of the thinkers who are usually associated with the existentialist tradition whatever their actual doctrines were in one way or another influenced by the writings of Kierkegaard This influence is so great that it can be fairly stated that the existentialist movement was largely responsible for the major advance in Kierkegaard s international reception that took place in the twentieth century In Kierkegaard s writings one can find a rich array of concepts such as anxiety despair freedom sin the crowd and sickness that all came to be standard motifs in existentialist literature Sartre played an important role in canonizing Kierkegaard as one of the forerunners of existentialism However recent scholarship has been attentive to his ideological use of Kierkegaard Indeed Sartre seemed to be exploiting Kierkegaard for his own purposes and suspicions of misrepresentation and distortions have led recent commentators to go back and reexamine the complex relation between Kierkegaard and the existentialist thinkers The articles in the present volume feature figures from the French German Spanish and Russian traditions of existentialism They examine the rich and varied use of Kierkegaard by these later thinkers and most importantly they critically analyze his purported role in this famous intellectual movement **Phenomenology** Dermot Moran,Lester E. Embree,2004 This set reprints the essential scholarship published in the field It includes a general introduction by the editors as well as individual volume introductions exploring and contextualising the main themes of the comprehensively covered tradition This is a key point of reference for anyone researching the phenomenological tradition **The A to Z of Existentialism** Stephen Michelman,2010-04-01

Existentialism is the philosophy of human existence which flourished first in Germany in the 1920s and 1930s and then in France in the decade following the end of World War II. The operative meaning of existentialism here is thus broader than it was circa 1945 when the term first gained currency in France as a label for the philosophy of Jean Paul Sartre. However it is considerably less broad than the view proposed by commentators in the 1950s and 1960s who in an attempt to overcome Sartre's hegemony discovered the seeds of existentialism far and wide in Shakespeare, Saint Augustine and the Old Testament prophets. In this dictionary existentialism is understood as a decidedly 20th century phenomenon though with roots in the 19th century. Effort has been made to understand the philosophy of existentialism as all philosophies should be understood as part of an ongoing intellectual tradition, an evolving history of problems, concepts and arguments. The A to Z of Existentialism explains the central claims of existentialist philosophy and the contexts in which it developed into one of the most influential intellectual trends of the 20th century. This is done through a chronology, an introductory essay, a bibliography and more than 300 cross-referenced dictionary entries offering clear, accessible accounts of the life and thought of major existentialists like Jean Paul Sartre, Martin Heidegger, Martin Buber, Karl Jaspers, Gabriel Marcel, Simone de Beauvoir, Albert Camus and Maurice Merleau-Ponty as well as thinkers influential to its development such as Wilhelm Dilthey, Henri Bergson, Edmund Husserl and Max Scheler. This book affords readers an integrated critical and historically sensitive understanding of this important philosophical movement.

**French Philosophy and Social Theory** Jacob Dahl Rendtorff, 2014-05-28. This book demonstrates how the conceptual resources of contemporary French philosophy from the early 20th century to the present day can be applied to give us new perspectives on business ethics and the ethics of organizations. In providing an overview of possible applications, the book covers a wide range of philosophers, philosophical movements and perspectives and provides detailed analyses of core materials relevant to business ethics. It explores and analyzes French philosophy taking into account phenomenology, existentialism, French epistemology, structuralism, post-structuralism, deconstruction and postmodernism as well as recent discussions of philosophy of organizations and management. Each chapter contains suggestions for further reading and educational illustrations of possible applications to the mainstream business ethics and ethics of organization literature.

*At the Threshold of Mystery* Ewa Borkowska, 2005. The

book *At the Threshold of Mystery Poetic Encounters with Otherness* addresses the problem of literary dialogue as it appears in the philosophical poetic and aesthetic discourses in the last two centuries. Central to the dialogue with Otherness is a background discussion of the idea of friendship as an encounter with another individual with another man with God or gods and also with another culture. The issues present in Emmanuel Levinas's ethical philosophy, Merleau-Ponty's concept of intersubjectivity, become a crucial point in the creative construction of the philosophy of dialogue whose ideological antecedents date back to the times of Plato. At the border of language or at the threshold of mystery, there crowds what is metaphysically arcane or immediate that which signals the other, the out there. The central idea which this book examines is how to reconcile the hermetically sealed historical past with modern times in order to inaugurate the genuine philosophy of dialogue. It is the author's strong belief that by interrupting totality, the poetic work which often turns into the prophetic signature or voice, the trace of otherness seems to give testimony to the primordial experience so essential for the birth of poetry. The poetic examples of the mysterious encounters with Otherness are selected each in its most idiosyncratic way from Gerard Manley Hopkins, Rainer Maria Rilke, Paul Celan, Seamus Heaney and two Polish poets, Zbigniew Herbert and Adam Zagajewski, but also from Walter Pater's aesthetic epiphanies.

*Philosophic Classics: Twentieth-century philosophy*  
Walter Kaufmann, Forrest E. Baird, 1997. Since 1961 *Philosophic Classics* has provided a generation of students with an anthology of quality in the history of Western philosophy. Using complete works or where appropriate complete sections of works, this series allows the philosophers to speak directly to the reader. This series includes texts central to the thinker's philosophy using the best available translations. Introductions to the readings are divided into three sections: Biographical provides a glimpse into the life of the philosopher; Philosophical presents a resume of the philosopher's thought; and Bibliographical offers suggestions for further reading. In addition, drawings, photographs, and time lines help put the readings in context. In short, every effort has been made to help the reader understand the primary source materials.
