## Merrie Afrikal:

**Black Death: AIDS in Africa** Susan Hunter,Susan S. Hunter,2004-10 To the surprise of many George W Bush pledged 10 billion to combat AIDS in developing nations Noted specialist Susan Hunter tells the untold story of AIDS in Africa home to 80 percent of the 40 million people in the world currently infected with HIV She weaves together the history of colonialism in Africa an insider s take on the reluctance of drug companies to provide cheap medication and vaccines in poor countries and personal anecdotes from the 20 years she spent in Africa working on the AIDS crisis Taken together these strands make it unmistakably clear that a history of the exploitation of developing nations by the West is directly responsible for the spread of disease in developing nations and the AIDS pandemic in Africa Hunter looks at what Africans are already doing on the ground level to combat AIDS and what the world can and must do to help Accessibly written and hard hitting Black Death brings the staggering statistics to life and paints for the first time a stunning picture of the most important political issue today

**David Livingstone and the Myth of African Poverty and Disease** Sjoerd Rijpma,2015-06-24 This study about David Livingstone is different from all other publications about him Here Livingstone is not the main topic of interest the focus of the author is on nutrition and health in pre colonial Africa and Livingstone is his key informant David Livingstone and the Myth of African Poverty and Disease is an unusual book After a close examination of Livingstone s writings and comparative reading of contemporary authors Sjoerd Rijpma has been able to draw cautious conclusions about the relatively favourable conditions of health and nutrition in southern and central Africa during the pre colonial period His findings shed new light on the medical history of Sub Saharan Africa The surprise awaiting travellers in and also before 19th century Africa was that the inhabitants of the interior even the slaves were healthier and better fed than many of their contemporaries in Europe s Industrial Revolution An impressive piece of scholarship truly forensic in its close reading and re reading of Livingstone s published works and those of other travellers during the same era clearly a labour of love which has taken years to complete Joanna Lewis

**An Economic History of West Africa** A. G. Hopkins,2019-10-17 This pioneering and celebrated work was the first and remains the standard account of the economic history of the huge area conventionally known as West Africa The book ranges from prehistoric times to independence and covers the former French territories as well as those colonised by the British It criticises conventional beliefs about economic backwardness offers an alternative account that explains the particular configuration of poverty that characterised the pre colonial period and assesses the consequences of the region s interaction with the wider world from the growth of the Saharan and Atlantic trades to the rise and demise of colonial rule This edition contains a substantial new Introduction that discusses the development of the subject during the past 50 years evaluates the debate over the original interpretation and provides a valuable guide to additional reading bringing the reader up to date with current scholarship on the subject as well as providing avenues for further independent research Appearing at a time when the study of African economic history is enjoying a revival and is engaging

economists as well as historians the book fills a large gap in African studies provides newcomers with a stimulating point of entry into the subject and contributes to our understanding of wider issues of global underdevelopment **The S.A.**
