Messerschmitt's Bf 109 is among the most famous fighter aircraft in the history of military aviation and it was during the Spanish Civil War that it first saw combat. Using newly discovered records, the author describes the Bf 109's operational career with the Legion Condor, the German military unit that fought in Spain. The text is enhanced by many personal accounts written by the pilots who flew the Bf 109 in Spain, with descriptions of combat and other aspects of life in Spain from 1936-39. All versions of the Bf 109 which served in Spain are described, accompanied by illustrations from the pilot's notes. The book is illustrated with 235 photos, most never before published, and technical drawings. Appendices provide detailed descriptions of the fourteen Bf 109 A fighters sent to Spain, biographies of selected pilots who served there, and a copy of J 88's victory list from the estate of a former Legion fighter pilot. *Messerschmitt BF 109 F-K* (Willy Radinger, Wolfgang Otto, 1999)

As the Luftwaffe's standard fighter beginning in 1937, the Bf 109 was produced in large numbers and, after the outbreak of the Second World War, saw action over every front. With this light, high performance aircraft, Professor Willy Messerschmitt had created a ground breaking design. The Bf 109 had to remain in continuous development in order to keep pace with advances in Allied fighter design. In 1941, the advent of the Bf 109 F, a clearly improved version which was soon replaced by the more powerful and better armed Bf 109 G. The Bf 109 H, high altitude fighter, reached a ceiling of 14,000 meters, and the Bf 109 K, the most potent of all the variants of this fighter aircraft, entered production in the last year of the war. This is a complete summary of all versions from the Bf 109 F to K, with many photographs, some never before published, and details.
