**The Logic of Gilles Deleuze** Corry Shores, 2020-10-15 French philosopher Gilles Deleuze wrote two logic books Francis Bacon The Logic of Sensation and The Logic of Sense However in neither of these books nor in any other works does Deleuze articulate in a formal way the features of the logic he employs He certainly does not use classical logic And the best options for the non classical logic that he may be implementing are fuzzy intuitionist and many valued These are applicable to his concepts of heterogeneous composition and becoming affirmative synthetic disjunction and powers of the false In The Logic of Gilles Deleuze Basic Principles Corry Shores examines the applicability of three non classical logics to Deleuze's philosophy by building from the philosophical and logical writings of Graham Priest the world's leading proponent of dialetheism Through so doing Shores argues that Deleuze's logic is best understood as a dialetheic paraconsistent many valued logic

Dunne, 2013-02-08 Throughout the history of Buddhism few philosophers have attained the stature of Dharmakirti the Lord of Reason who has influenced virtually every systematic Buddhist thinker since his time Dharmakirti's renowned works written in India during the

philosophically rich seventh century argue that the true test of knowledge is its efficacy and likewise that only the efficacious is knowable and real Around this central theme is woven an intricate web of interrelated theories concerning perception reason language and the justification of knowledge Masterfully unpacking these foundations of Dharmakirti's system John Dunne presents the first major study of the most vexing issues in Dharmakirti's thought within its Indian philosophical context Lucid and carefully argued Dunne's work serves both as an introduction to Dharmakirti for students of Buddhism and a groundbreaking resource for scholars of Buddhist thought     Dictionary of World Philosophy A. Pablo Iannone, 2013-04-15 The Dictionary of World Philosophy covers the diverse and challenging terminology concepts schools and traditions of the vast field of world philosophy Providing an extremely comprehensive resource and an essential point of reference in a complex and expanding field of study the Dictionary covers all major subfields of the discipline Key features Cross references are used to highlight interconnections and the cross cultural diffusion and adaptation of terms which has taken place over time The user is led from specific terms to master entries which provide valuable historical and cultural context Each master entry is followed by at least two suggestions for further reading on the subject creating a substantial bibliography of world philosophy References extend beyond philosophy to related areas such as cognitive science computer science language and physics Subdisciplines covered include aesthetics ethics sociopolitical philosophy the philosophy of law epistemology logic the philosophy of science the philosophy of mind the philosophy of culture and history metaphysics the philosophy of religion Entries are drawn from West Africa Arabic Chinese Indian Japanese Jewish Korean Latin American Maori and Native American philosophy including the important and so far largely neglected instance of Pre Hispanic thought Nahua philosophy
