Frederick D. Wilhelmsen

Metaphysics For A Humanist:

Metaphysics for a Humanist S. K. Leung, 2001 This book offers a new look at some of the most established principles underpinning metaphysical thinking. The discussion is at once engaging and provocative taking the reader through the big issues and the big thinkers from Aristotle to Wittgenstein taking Descartes's cogito to task along the way. The author provides provocative discussions exposing and refuting the inherent weaknesses of conceptual reality asserting support of epistemological over logical priority and asking the question how do we conceptualize duration past present and future and reconcile that with oneness. The analysis concludes by showing that it is only humanity that can conceive of reality as necessary contingent or possible.

The Metaphysics of Self and World Elie Maynard Adams, 1991 A great fissure occurred in Western civilization in the early modern period with the divorce between the humanities and the sciences and the rise of scientific naturalism. The Metaphysics of Self and World is a philosophical exploration of the relationship between the individual the culture and the world. It is in the author's words a philosophy of the humanities a philosophy of humanity and a philosophy of social reality. It explores the implications of a world view that would integrate the perspective of the sciences with humanistic ways of thought. E M Adams claims that we do violence to ourselves as human beings by trying to fit into the world as delineated in scientific categories. Rejecting cultural subjectivism and scientific naturalism he argues for the irreducibility and validity of the categories of the humanities and for a fully developed humanistic philosophy of self and world. In generating this world view he utilizes the humanities as a source of culture therapy in order to close the fissure in Western civilization. Author note: E M Adams is Kenan Professor of Philosophy Emeritus at the University of North Carolina Chapel Hill. He has written numerous books and articles and a festschrift celebrating his work Mind Value and Culture Essays in Honor of E M Adams edited by David Weissbord was published in 1989.

The Metaphysics of Night Matthew Del Nevo, 2014-04-18 The Metaphysics of Night acknowledges a post secular philosophy one that puts philosophy into serious dialogue with religion rather than considering religion a thing of the past. Matthew Del Nevo deals with the cultural unconscious inseparable from religious consciousness and draws on psychoanalysis and literature as well as philosophy. The metaphysics of the night is Del Nevo's metaphor for the deep and mysterious expanse of the soul. Philosophically the book is critical of Enlightenment presumptions about knowledge and truth and overly spiritualizing tendencies in religion. Its critical edge cuts against materialist and historicist tendencies in the humanities and abstract intellectualism in philosophy. Arguing for strong aesthetic values Del Nevo defends and explains soul and soulful experience the creation of depth the ineffable real presence beauty and saving words noting that the sources of all these are in us but often are blocked. Each of the five parts of this book testify to what the author notes may be forgotten but which ought not to be forgotten. It is necessary for life as socially religiously and educationally instituted within culture and as constitutive for culture. Del Nevo deals with sensibility as a form of wisdom and instinct that is not cognitive or knowledge information based. He argues for a shift of emphasis in

culture from intellect to intuition This well written work filled with Catholic philosophic and artistic thought will be of interest to all philosophers theologians and students of culture [HUMANISTIC PHILOSOPHY : Humanistic and Pro-Humanistic Ideas, Values, Orientations, Movements, Methods, and Representatives in Philosophy, Science, Society, and Social Practices HARDCOVER EDITION](#) ,2023-05-19 As a sub discipline part of general Philosophy Humanistic Philosophy is focused on and brings in attention especially the category the value concept of Human Being with the meaning of agency individuality subject the person with the attribute of freedom and self determination the respect for the human as individual as a Person in opposition to the approaches that represent the individual human being as a simple statistical element into a social structure system mechanism in history and or society In the second meaning crucial concepts syntagms and ideas values that are bring in attention when we speak therefore of general philosophy as a humanistic discipline are Anthropo Centrism and Person Centered Approach in the general process of philosophical knowledge and investigation Essentially philosophy as a humanistic discipline through all its branches orientations schools and methods is an ethics of the phenomenon process and act of knowledge in general and of the philosophical knowledge in particular an ethics of the human of the man of humanity and especially ultimately a philosophy of the human as a goal values ideal principle of all the processes acts of knowledge and action epistemologically and methodologically speaking Regarding the Destination of this book its design content and bibliography are made in such a way that to be useful both to the academic scientific community to students teachers and researchers and also to the professional community artists educators managers social workers psychotherapists health professionals human rights activists activists in the political sphere etc

Social Humanism Brian Ellis,2012-10-02 In this book Ellis argues that moral and political objectives are not independent of one other and so must be pursued in tandem Social humanism is a moral and political philosophy that does just this As a political philosophy it justifies the implementation and maintenance of many of the characteristic social policies of welfare states As a moral philosophy it provides the foundation required for most human rights legislation To this end Ellis elaborates on the theory of social humanism and the need to reconsider the metaphysical foundations of morals He develops the theory of social idealism as a meta theory for both morals and social policy exploring the global consequences of this new approach

Studies in Humanism Ferdinand Canning Scott Schiller,1912 *Humanism and Early Modern Philosophy* Jill Kraye,M.W.F. Wilhelmsen,2015-10-28 The Metaphysics of Love develops the existential metaphysics of St Thomas Aquinas applying it to explore the ontological structure of the human person Published first in 1962 this book demonstrates the fertility of Thomistic metaphysics and the enduring influence of Thomism on Western philosophy It uncovers the ecstatic

structure of human existence in dialogue with philosophers ranging from Plato Aristotle and Aquinas to Kant Hegel Heidegger Tillich Zubiri and Ortega y Gasset as well as theologians and historians Romano Guardini Hilaire Belloc and Eric Voegelin Philosophical and theological examinations of love have in various ways raised the following question how can love of self eros be harmonized with love of others agape These types of love represent two drives Wilhelmsen argues that in the end must be seen as aspects of existence itself Moral and psychological problems of love turn out to be manifestations of metaphysical issues While different cultures have emphasized one of these drives or the other a healthy culture will not completely forget either Cultures differ in the way they emphasize one or the other or flee from one or the other These dimensions of human existence provide the framework for a person's love of self neighbor and God This volume is part of Transaction's Library of Conservative Thought series **The Humanist**, 1961 **The Critique of Humanism** Clinton Hartley Grattan, 1930
